DRONES & ACCESSORIES	For Purchase Links Visit: https://Drone-Cadets.com/Shop				
Tello Drone Kits	Drones and controllers will be provided by the client. One drone per student is ideal. We recommend the TELLO drone by DJI/Ryze (\$99). If money is tight we recommend purchasing one drone for every two students, or as many as you can afford. Links to drones are available on our web site.				
Drone Racing Kits	Drones Racing drones, controllers and FPV goggles will be provided by the client. One drone kit per student is ideal, but if money is tight, equipment can be shared. We recommend a Micro Quad Racing Kit that costs approximately \$400 per student. A written price quote will be provided upon request.				
Classroom Accessories	Links to classroom essentials we recommend can be found at Drone-Cadets.com/Shop. Safety glasses, helipads, and accessories (including extra batteries, chargers, USB Hub, power strips, etc.) will be provided by the client.				
More Information	In preparation for your time with the Drone Cadets team, please refer to our Logistical Requirements and Set-Up Instructions.
