

# DRONE CADETS

ENTRY LEVEL DRONE TRAINING FOR AGES 8+ WITH  
ENDLESS ENGAGEMENT FOR ALL SKILL LEVELS

Drone Cadets is quite simply, the most fun and engaging drone education program anywhere. Accredited by STEM.org, we've helped teach more than a thousand students worldwide to become safe, responsible drone pilots.

Our programs are perfect for reading-age Elementary, Middle and High School students.

## Drone Flight School

Pre-requisite, entry-level drone training and enrichment with an emphasis on skills, safety, procedures and practice. Filled with our signature learning activities, and fun, hands-on, mission challenges.

## Drone Soccer League

Flight skills combine with coding, team work and strategy in this fast-growing sport, born in Korea and new to the US. This STEM curriculum is perfect for middle school, high school and beyond.

## Drone Racing Club

Lightning speed meets micro quad technology, launching a whole world of competitive league racing you can never outgrow.

# THROTTLE UP LEARNING

For more than four years it's been our mission to bring life-changing STEM education to underserved communities. Drone Cadets helps spark the bright young minds of students of all ages and backgrounds, and light up new pathways for further scientific exploration. In Drone Flight School, we provide practical, hands-on instruction that gives students the exciting experience of flying a drone, while learning the FAA required rules and safety procedures. Drone Cadets goes a step beyond, offering coding autonomous drone flight to promote further STEM learning and provide real-world career insights. Higher level students pull it all together with Drone Soccer and propel into Drone Racing Club.

Live Instruction starts at \$199 per student for a minimum of 10 students; which is about the cost of one text book. Volume discounts are available for 30 students or more.

## Live Classes

Our core enrichment programs are accredited by STEM.org and available In-Person or Live via Zoom/Google Meets. Programs For groups of 10 or more are customized to meet your schedule and logistics.

## Online Learning

Our Learning Methodology incorporates animated videos, written narrative, puzzles, games, missions, and assessment aligned with solid learning outcomes. Available for anyone, everywhere.

## Events & Assemblies

Drone Cadets offers assemblies, events & real-world training showcases from one hour to a full day, for schools & organizations everywhere. Let us give your next STEM Day, Career Day or Author Event a real lift!

## Drone Cadets App

A free download with AR to fly a drone in your own room. Flight missions, races and multi-player options reinforce learning as you progress through higher levels allowing people of all ages to engage in the future of drone technologies. Available in the App Store and Play Store.
