No. 20 Gerry Caley

Or - The one armed bandit

Gerry is rumoured to be the adopted son of Bernard Matthews and Delia Smith. Although Gerry has neither confirmed or denied this he did say it would be 'Bootiful' if true.

Still working, Gerry looks after clients investments and pensions. He is an expert in his field, and will be able to tell lucky clients tomorrow why the things he predicted yesterday didn't happen today. His master plan is to invest in a whiskey distillery as he knows he will get at least 40% there.

Apt to become tired very quickly, Gerry has been found face down in a plate full of biryani on more than one occasion by the long suffering Maureen. Such is his plight that any take-away sent to the Caley household now carries a Government health warning.

On the course, Gerry still hits the ball prodigious distances off of the tee and can be spotted from anywhere using his famous one handed putting technique - why use two when one will do? This is mirrored in the bar where he has perfected the one handed drinking technique with equal aplomb.

Chairman of our great club, Gerry can be found working diligently at the club on our behalf long after everyone else (Messrs Kirkwood, Rouse and Mahoney excepted) have left. Good company both on the fairways or discussing the day in the bar after.
