## No. 10 Peter Michelotti

or....Did he really design the prancing horse?

Current President of our esteemed band, mainstay of the section and two time winner of the Bill Stirling trophy.

Pete is a doyen of the aerospace industry having a particular fondness for Olympic Airways and RAF reunions where he can be frequently found.

Still surprises himself at just how far he can hit any club, normally this is just after he has hit over a group in front with a particularly well struck 9,8,7,6,5 iron 3 wood or driver, which is always followed with a fulsome apology and a smile.

Can often be seen with Derek Stew after a round talking through the minutiae of their rounds - every if, but and what could have been.

The only vet in WGC history who has a professional golfer as chairman of his fan club - one Jarmo Sandelin, who enjoyed Pete's sharp wit and repartee so much during a round at Wentworth that he struck up a lifetime friendship.

Normally extremely reluctant to enter into conversations but he will occasionally drop his guard and chew your ear for two hours!

Still a great competitor and a pleasure to spend time with both and off the course.
