

Famous Wanstead Veterans

No. 33 Steve Woodward

Or - The Accomplished Antipodean Abalone Authority

Steve recently signed a long term sponsorship deal with 3M abrasives who had just lost their previous deal. He is WGC's most travelled Vet, like all of our Aussie cousins, Steve is forced to return home frequently to check in with his parole officer.

Since returning to the 'old country' Steve has carved out a niche in Abalone importing, much to the relief of the patrons of Wanstead Vets who had been desperate to find an alternative source for their favourite post golf lunch.

Extremely generous, Steve has donated food to various birthday and supper functions -

even allowing us to auction a good quantity of lobster to some ~~poor saps~~ members which raised a very tidy sum for Great Ormond Street Hospital.

On his day Woody hits the ball prodigious distances and can be a very difficult opponent off of his 20 handicap. When not on his day Woody hits the ball prodigious distances but not necessarily in the right direction! Keen to play whenever possible, he is the polar opposite of Mr. Jones, turning up hours, if not days early for an away trip.

Great company on the course and in the bar and very capable of holding his own in post game banter on all subjects.
