Our visiting teacher this year will be the versatile beading designer and instructor, **Carol Cypher**. We have 4 classes, two 1-day classes and two half day classes to offer. We need at least 10 ladies to enroll in each class to be able to pay our expenses.

The Classes are as follows:

1 Day 6 hours class:

“For Norma Jean”

Combine 2 favorite stitches: peyote and right-angle weave to create interesting chain- links that connect with an interesting quicker and simpler take on African helix to create this tribute to Norma Jean. Carol will gift you this “diamond” to show to best advantage by capturing it in a lacy stitched beaded bezel. Your “diamond” conceals a secret yet effective closure.

1 Day 6 hour workshop for experienced beaders proficient in at least one beading stitch below:

peyote, right angle weave, netting, African helix. Materials List or Kit option with advance notice: all the beads to render one like in photo **\$40.**

1 Day, 6 hours Class:

“Cosmic Waves Necklace”

This asymmetrical necklace features 5 radiating rings of daggers and a beaded closure that "screws" into place. Appreciate the unique qualities that peanut beads lend to peyote and right angle weave projects, making them appear more complex, even layered and allowing for easy manipulation into curves and waves.

Intermediate level.

Materials List or Workshop Kit with advance notice: **\$85** Carol's gift to you **A Tulip head-pin.**

Half-Day, 3 hours Classes

“For Cleopatra, Serpent of the Nile”

A highly textured rope composed of rizo and superduo beads (plus our beloved seed beads) appears to have slithered into a beautiful curve around your neck. The concealed wire armature allows you to freeze-frame your perfectly comfortable and graceful curve.

Intermediate beaders

Materials List or Kit available with advance notice: **\$65.**

Bring hardware store pliers, if you have, not your good jewelry pliers.

Carol's GIFT for YOU: Wire armature that remains within the bead work.

“Cascading Drops Necklace”

Peanut beads and Japanese drop beads combine in a most intriguing way to make the chain of this necklace. Deceptively simple yet complex in appearance. At one end, attach half of a magnetic clasp. Stitch an elegant ring of drops and crystals to adorn the other end of the chain. Add a cascading counterweight of drops and small crystal cabochettes.

Make a focal element of a large cabochette, lavishly beaded with drop and peanut beads to conceal the other half of the magnetic clasp. When it is completed, drop the magnetic end of the chain through the ring on the far end. Attach the magnetized cabochette, now capped by the ring of beads. Enjoy learning these techniques that pair peanut and drop beads while composing a fun necklace.

Half Day Class 3 hour workshop for intermediate beaders.

Material Lists and class kits: All classes have material lists available. Three classes have class kits which I listed above. If you want a class kit, you need to let me know in advance. At some date, Carol will ask me how many class kits she needs to make for each class. I will ask one last time; I will then send her the information. Carol will make only the number I give her. No last minute, extra kits. You will pay Carol the day of the class for your preordered kit. She accepts cash and credit cards.

If you pay for class(es) and cannot attend, we will save your instructions. If you ordered kit, you are still obligated to pay Carol for it because she will have made it for you. .

All participants must be members of Coastal Bead Society with the exception for our sister members of the Hilton Head Beading group. To them, we extend welcome and no membership charge.

Now is the time to register. I begin accepting registration materials at our first CBS meeting on Sept 21, 2018.
