

ABC Language Proficiency Program

It was founded in 2018 by Michael Mecenias with the goal of creating a focused learning environment with small class sizes and a strong focus on academics. With the help of local educators dedicated to teaching English to students around the world.

Using the knowledge they've acquired as expert educators, they created a program based on which effective language learning should be fun, social, inspiring, and accessible, practicing methods focused on communication. The Program is designed for individuals seeking to communicate more effectively and improve their performance in professional, academic, and social environments.

We began offering ESOL classes in 2018, starting with just 3 classes Level I, II, III and eventually, as our students flourished and grew, we decided to expand our program offerings.

Once we moved to our new location, we began expanding our offerings to include ESOL beginners and Brazilian Portuguese classes dedicated for children ages 6-12 in 2020.

We wanted to create a place where students could receive a more effective education in English and be better prepared to reach their academic and professional goals here in the United States. All our class sizes are held to a maximum of 18 students.

Our mission:

The ABC Language Proficiency Program is dedicated to teaching English as a Second Language and Portuguese to newcomers and international students from around the world, providing both in-person and long-distance classes (ZOOM) creating an unforgettable experience for a lifetime.

To help students who want to improve their language proficiency and communicate more effectively and improve their performance in professional, academic, and social environments.

To create a space where students find a warm and caring community and have the opportunity to share their stories and passion for the language.

Our goal:

To enable limited English proficient students to become competent in the comprehension, speaking, reading, and composition of the English language through the integrated use of second language methods.

Classes days and levels of English we offer:
