ABOUT ME

I, Charchit Bagla, graduated from MAAC, Faridabad, India, with Bachelor Of Arts in 3D Animation & Visual Effects Degree (Affiliated to IGNOU, New Delhi) in July 2013. I offer my services as an expert in Digital Arts, Photography & Animation. In addition to this, I am expert in cinematography like making documentary movie. I have 3D modelling, texturing, lighting skills and still am designing posters and advertisements using Adobe Illustrator & Photoshop. Because of my creativity I am also highly skilled in photography as well. I have uploaded some of my novice work of art on my website. Please feel free to give your feedback.

I am Photographer. But as they say, if you are passionate about something in life, even the sky is not the limit. Photography is not complex. It's an art so simple yet elegant that it can make even a drop of water look stunning. I am awed by the beauty of landscapes, architecture (new and old), portraits, animals, seasons and anything and everything that surrounds us. I truly feel, a picture is worth a thousand words, and a good photographer has the ability to present even the simplest of things in a manner that can take your breath-away.

As employee of Zee Company, i have uploaded more works on my work portfolio site. Please click this link given below
