

The Companion Animal Cancer and Referral Center of Toronto (CACRC) is seeking applications for highly skilled emergency veterinarians. Roles are available in both incoming patient management as well as ongoing care for hospitalized and ICU patients. Successful applicants will join an exceptional team of veterinary specialists and support staff offering services in 24/7 emergency and critical care, oncology, neurology, cardiology, internal medicine and surgery.

The CACRC mandate is to increase the quality of care for companion animals through knowledge transfer among and between human and veterinary clinicians; together improving patient outcomes, client care and professional satisfaction.

Schedules are designed to maximize time off of work and minimize fatigue;  $\frac{3}{4}$  weekends off,  $\frac{1}{2}$  weeks off, maximum of 36 hours per week and average 28 hours per week. A competitive remuneration package, abundant CE, paid benefits, pet insurance, uniform and parking are all available.

The CACRC is currently under construction with anticipated opening in the fall of 2018. CACRC is centrally located just South-West of the junction of the 401/404/DVP.

If you have experience in emergency medicine or referral practice or have 3 or more years in a primary care practice and are looking to work in a novel new practice where the mandate is better outcomes for all please contact:
