ACS SafetyNet™

Remote Service.

Expert Support. Maximum Uptime. Minimal Overhead.

Partnership & Service

ACS is expanding its technical service infrastructure across Western Canada — including British Columbia, Alberta, Saskatchewan, and Manitoba — as part of our broader **SafetyNET™** strategy. This investment strengthens our ability to deliver responsive, high-performance support to meet the evolving needs of advanced manufacturing operations.

SafetyNET™ Remote Service connects you directly to an ACS technical expert for real-time diagnostics and guidance via phone and/or online support. With flexible, per-call access and discounted service rates, it's an agile solution engineered to reduce downtime without the cost of a full-service agreement.

ACS **SafetyNET™** Remote Service Program

Connect: 604 954 0470

Program & Enrollment

- ▶ Remote-based (*Telephone or Email*) support is provided at no charge for all warranty-related issues on all MultiCam machines less than two years old.
- ▶ For machines beyond the two-year period, enrollment in the ACS **SafetyNET™** Remote Service Program is required to avoid a per-incident support fee.
- ▶ For customers enrolled in the **SafetyNET™** Program, any required on-site service will be billed at a discounted hourly rate (*10% off standard service rates*).
- ▶ Customers who spend \$5,000 or more annually on ACS parts and service, (*excluding freight, travel and expenses*), will be automatically re-enrolled in the **SafetyNET™** program at no additional charge.
- ▶ The per-incident fee applies to all remote-based diagnostics, troubleshooting, and application support, (*excluding part-only inquiries*).

Enrollment

- ▶ To enroll, simply click on the QR Code or contact our office and ask to speak to Kerri Martin.

Contact

Canada: (604) 954-0470 / USA: (360) 948-9422

Special Note:

- ▶ All dollars amounts are quoted in CAD.
- ▶ When servicing our customers in outlying areas every effort will be made to book other end users calls in order to equally share the travel costs.
