from the Principal's pen

A simple smile, a kind word, or even just showing patience with someone who's having a rough day can completely change the atmosphere.

Positivity doesn't mean everything is perfect, it means choosing to focus on what's good, even when things get busy or challenging.

When we do that, our classrooms feel more welcoming, our hallways feel brighter, and our entire school becomes a place people want to be.

So this week, I challenge all of us (students, teachers, and staff) to spread a little extra positivity. Compliment someone, thank a teacher, or help a classmate. Small moments can make a big impact.

Let's keep making our school a place filled with kindness and encouragement!

MATH IN EVERYDAY LIFE

While you're reading a bedtime story, look for ways to talk about math concepts. Find bedtime stories that explicitly incorporate counting, shapes, and other mathematical concepts. Make math talk a part of any bedtime story—for example, if you're reading a book about a boy searching for his missing pet frog through a forest, count the number of animals he meets along the way.
