

MATTAWA IT SOLUTIONS CLOUD SERVERS

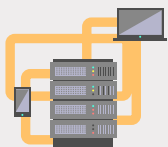

BUSINESS IS BETTER IN THE CLOUD

Mattawa IT Solutions's 100% Canadian cloud offers superior performance, while enabling your organization to adopt cost-effective, complete, enterprise-grade cloud solutions.

The Mattawa IT Solutions Price-Performance Advantage

In a recent benchmark study, we outranked Amazon Web Services and Microsoft Azure by 52% in overall compute power. In fact, Mattawa IT Solutions outperformed in most categories tested, including overall multicore performance, 'IOPS', 'throughput' and price. Each set of tests used solutions of comparative price points.

+52%
compute power

Mattawa IT Solutions Cloud enables organizations to access data from anywhere, at anytime. In the event of a disaster, they can rest assured knowing that their data is safely stored and ready for recovery. Additionally, remote workforces can securely access their data and work collaboratively from anywhere there is an internet connection. Mattawa IT Solutions Cloud optimizes utilization, while reducing CAP EX, making it simple to scale when required, without the worry of added hardware and infrastructure costs. Since the Mattawa IT Solutions data centers reside in Canada, we can offer geographic redundancy and data sovereignty.

Mattawa IT Solutions's Cloud Strategy

Mattawa IT Solutions understands that migrating to the cloud can be complicated. We enable you to build a comprehensive, multi-step migration plan that is focused on business growth and smart technology solution investments. Our flexible cloud infrastructure enables you to accommodate your unique business requirements, no matter no matter where you are in your cloud journey.

According to our customers, our top performance ranking, elastic pricing model, and our expertise in a full range of hosted cloud solutions are what sets us apart from other cloud service providers. We're proud of the level of service that our clients receive from us.

Mattawa IT Solutions's state of the art UTI Tier III Data Centers are 100% Canadian Owned and Operated
