

Workplace culture + inclusive leadership

The Storman Group LLC — Dr. Ashley Storman, Ed.D.

SG

CLIENT OVERVIEW

Workplace culture + inclusive leadership workshop series

THE SITUATION

Organizations across multiple sectors sought a learning experience that was both substantive and safe. Whether addressing unconscious bias, learning to support Black women in the workplace, or building inclusive leadership cultures, participants needed practical tools, honest conversation, and a facilitator who could hold space for uncomfortable topics. Many had attended surface-level trainings before — they wanted something different.

WHAT WE DID + WHAT CHANGED

Across the Unconscious Bias, Empower/Support/Mentor, and People-Centered Leadership workshops, The Storman Group delivered consistently. The vast majority of participants rated sessions 5/5 across understanding, engagement, informativeness, and overall experience. Participants left with practical tools, new self-awareness, and the confidence to lead and educate others in inclusive spaces.

Unconscious bias

Supporting Black women in the workplace

People-centered leadership

LGBTQIA+ allyship

Navigating difficult conversations
