

## How can I help prepare my child for school?

Jr. Preschool Students:

The best thing you can do to help prepare your child for Preschool is to help him/her become more independent.

Some simple things to have your child do:

- Dress himself/herself independently every day
- Pick up toys
- Help with other household chores
- Write, draw, snip with scissors, paint, use playdough
- Learn to recognize name in print
- Spend time with other children
- Use the bathroom independently including washing and drying hands
- And most importantly... PLAY!! 😊
