

How can I help prepare my child for Preschool?

The best thing you can do is to help your child become more independent. Some simple things to have your child do at home:

1

Dress self, including putting on and taking off coat and shoes

2

Pick up and put away toys and help with other household chores

3

Learn to recognize name in print

4

Fine motor activities: draw, paint, color, blocks, playdough, puzzles

5

Use the bathroom independently including washing and drying hands

6

Spend time with other children

7

Most important -
PLAY!
