

## SAWS Landscape Coupons

SAWS' **WaterSaver Landscape Coupons** application is open through April 30 and provides financial incentives to help you transform your yard to a beautiful landscape while saving you money on your water bill.

For each coupon, you must remove at least 200 square feet of grass, the single most water-demanding element in a residential yard, and any irrigation in the area. SAWS residential customers can apply for up to four coupons in the spring, with a lifetime maximum of eight per account.

The spring coupon value is \$125 and may be applied to replace part of your thirsty lawn with drought-tolerant garden beds. While spring is a good time to plant, **fall is even better**. Planting in fall gives plants more time to establish before the heat of summer. To encourage fall planting, the coupon value will increase to \$150 when the fall coupon application opens August 15.

Keep in mind that automatic irrigation must be eliminated from the converted areas. To find out if you qualify for an additional [irrigation design rebate](#) for removing part of your irrigation system, call 210-704-7283 (SAVE) to schedule a **[free irrigation consultation](#)**.

With inspired ideas and a thoughtful seasonal plan and budget that includes WaterSaver Coupons, everyone can create the beautiful, water-saving landscape they've always wanted this year.
