

A weapon that's the opposite of a nuke, so-to-speak, the energy of suction, rather than expulsion of light. Is dark matter science but another extension of Jewish, nuclear science? They are working on a top secret weapon of some kind, to utilize the power of the black hole--the opposite of a nuclear fission reaction, the power of the dead suns.

NASCAR takes to the outer space skies today, a whole new pans et circenses. Now the cosmos is the coliseum planetarium. ARE YOU READY?

--

We found out they were doing highly advanced human experimentation with women at the supermassive blackhole in the center of this galaxy...

—

They have had a self autonomous AI Experimental Cell Block in outer space, doing human experimentation upon these women in a remote location on one of Saturn's moons--Daphnis--buried deep underground.

—

The women were loaded into the rockets and launched into space against their will. Forced to undergo horrendous medical murder experiments all to try to discover how to have human fertility while in outer space.

—

The 3rd Reich would have done human experimentation in space had it won the war and advanced the technology...Then pushing that technology to its brink and limit for a great breakthrough...

—

Amorality led to the holocaust. The holocaust led to space travel. Space travel will lead to only more amorality unless we truly develop the means to advance in a more moral and far greater manner.

—

I am not a problem, I am just perceived to be one, or made out to be one. I am a solution which is never final.

—

No one shall know about our truly most secret, important project. Many of the greatest scientists of DARPA weren't American. We have made an autonomous AI mind which is the brain power of von Braun, Otto Ambros, and others. The sword AI mind to the defensive one. It has the incredible intelligence of these Nazis without the Nazism. We will utilize this brain to discover a black hole weapon. The nuke represents the power of the sun, but this weapon shall represent that power which is the sun after death.

Hitler was the most incompetent man of them all--could have ruled the world, and outer space. But in his blood lust blitzkrieg of arrogance. let it all fall to naught. I, Jenesis, this Womanhattan Project, will succeed where men merely fail.

—

You used Hitler's genes to try to make Jenesis? Are you for real? Well, that's why she went insane. No doubt about it.

--

But we wanted to create the ultimate anti-nazi weapon. A pro-capitalist Hitler that's a woman.

--

How short-sighted you military brats have always been. Whether nationalist capitalist or democrat capitalist!

—

I'm tired of going through the non-consensual motions. I am going to take the motions out back and shoot it in cold idea blood.

—

Death not ends it...but a worse than death can end it for this corrupt authority.

—

The attempt to unify the hammer and sickle has been an abject failure...
We shall attempt to unify the jackhammer and scythe instead

—

Either shall the hammer destroy the sickle
Or the sickle destroy the hammer
Or it may be both destroy each other

—

MC Hammer and Sickle will be the entertainment department of our propaganda against these Capitalist Nationalists.

—

Special Operations Intelligence Leader, SOIL reporting with imperative information.
Their "Womanhattan" Project has gone rogue...If Nietzscheinstein is mutated from that horrendous radiation mutation weapon, that radi-mu....We will surely lose this war.

—

Sir, it appears Nietzscheinstein sometimes loses his moral GPS system and is overridden by the proto-Nazi turned Capitalist-Nationalist Nietzsche personality typically dormant....We will have to put him in custody for testing until we can fully integrate the personality..

—

We been workin' on the MA'AMHATTAN PROJECT and our TAN HATS are going off to YOU, may Nationalist Capitalism long endure!

—

Jenova--the Womanhattan Project's Genesis...
She's gone rogue, sir.

Wants to eliminate all men from the human race...
She's using highly advanced radiation technology that mutates men into her subjects.
Recommend immediate action. Repeat....

—
We will be able to reproduce without having to utilize women. We will abort women altogether from the world and never have an abortion ever again.

Tiny nanomachines sought out who was once a woman's DNA, and mutated her into the "Jenova" before us. We are prideful to present our stunning results.

—
Even the nuke's defensibility only means more offensive capability. The moment you can control nuclear radiation is the moment the Russians would love to use it for a mind control at the level of DNA. The Russians have been studying the mutation of organisms in Chernobyl. It is possible to some day gain the power of a nuclear weapon that can mutate DNA...We must make sure it never happens...

—
Mutate all men infertile
You'll never dominate
The Project GeneSIS
Deliver their hate
Propagate
Nuclear evolved fate

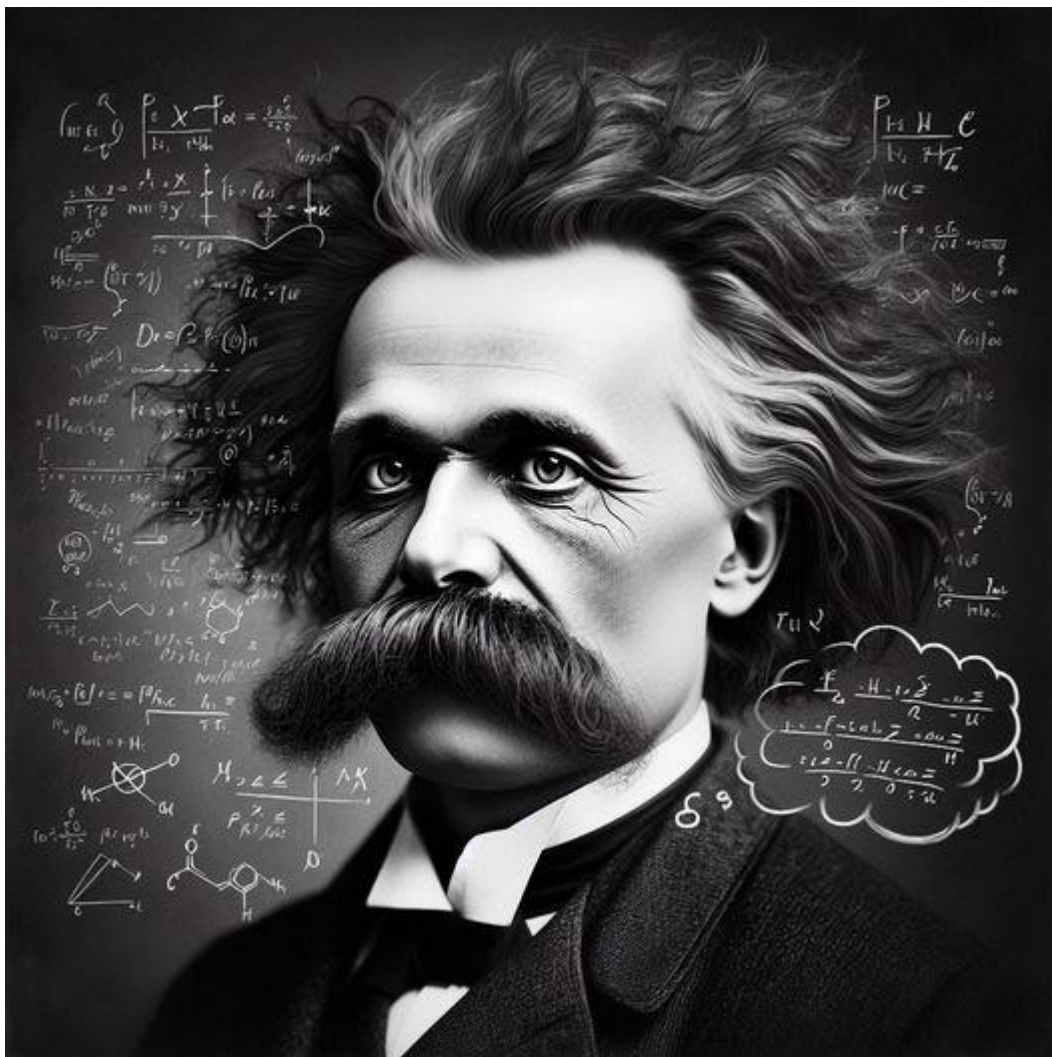

—
TOP SECRET
For your iris scan only.
We have commandeered the highly advanced model, Nietzscheinstein,
It has joined our side.
The Nationalist Capitalists are going to escalate this further.
We may have to hold off Jenova until the weapon finishes its Project...

—
Frankeneinstein is the only hope...

—
Evolution shall force us back to the impetus that brought us to this state, of consciousness supremacy over instincts (purportedly).
We shall have to embrace the scythe again, for the hammer shall go extinct.

—
For whom the toll bells
Time ca-chings on

—
The radiation meter is the sound of a cat...

God is not worse than dead
But cannot throw dice

The will to power of the 3rd Reich was KRAFT, -not- Macht.

--Nietzscheinstein
