

## Deployable Autonomous Surveillance Solution (DASS)

remote surveillance solution

### 100% autonomous power

- continuous operations
- no fuel, no noise, no emissions
- optional generator

### solar light tower

- 4 x 200 watt LED
- 24 x 7 lighting
- fully-autonomous
- 60,000 lumens

### 360 surveillance

- ground surveillance radar
- day/night thermal/EO camera
- white-light warning
- command & control

### on-board communications

- cellular, microwave or SATCOM

### command & control

- fully networked operation
- integrated security picture
- full situational awareness

## DASS360 POWER + SECURITY

### Rapid Deployment – Remote Sites

- Border security, protection of critical infrastructure
- Trouble-free operation for long periods of time.
- 100% mobile, rapidly repositioned
- Autonomous Power Trailer
- Integrated Solar LED lights
- Long-life battery bank
- Rapid Deployment - 5 minutes
- 24 x 7 hrs operation

- Surveillance Radar - 360 degrees coverage
- Fully integrated day/night Pan-Tilt-Zoom (PTZ) camera
- Perimeter Security – up to 500 metres range
- Search, detect, acquire, track and classify targets
- Autonomous operation – 100% power & comms
- Lowest False Alarm Rates
- Integrated Command & Control
- Communication to HQ

**Integrated all-in-one**

**Power,**

**Radar & PTZ camera**
