Movie Music Love Affair

For 30 years adjunct history instructor John LeGear has been cobbling together film compilations from outstanding movies and putting them to accompanying music. His focus has always been on films that appeal to adult audiences, especially older folks who grew up going to their local movie theater on a weekly or monthly basis.

The 19 selections in this presentation are all derived from LeGear's 16 "movie music" shows and all have one thing in common: romance, in one form or another. You'll see it, hear it, and feel it. Please join us for this joyful journey through time.
