## **Can't go to Spain? Go to St Augustine**

St Augustine is old Europe, particularly coastal Spain. The oldest continually inhabited European settlement in the continental US—it's been around since 1565 predating the US by more than 200 years—the Spanish-Moorish architecture and 16th century Mediterranean feel is everywhere, and the historic district has cobblestone streets, beautiful courtyards, ancient building, and Spanish-moss draped oak tries.
