

Ketra at Home

Transforming the Experience of Light

At Home with Ketra

Make family time magic

by creating the perfect light for your favorite moments together.

Be a celebrated host

by creating inviting spaces that always set the right mood.

At Home with Ketra

Work with confidence

under bright and energizing natural light.

Experience the Ketra Difference

Experience the Ketra Difference

Natural Light

Ketra's Natural Light reflects the color, intensity, and shifting sensations of daylight, dissolving the boundaries between indoors and outdoors.

Experience the Ketra Difference

Simple Elegance

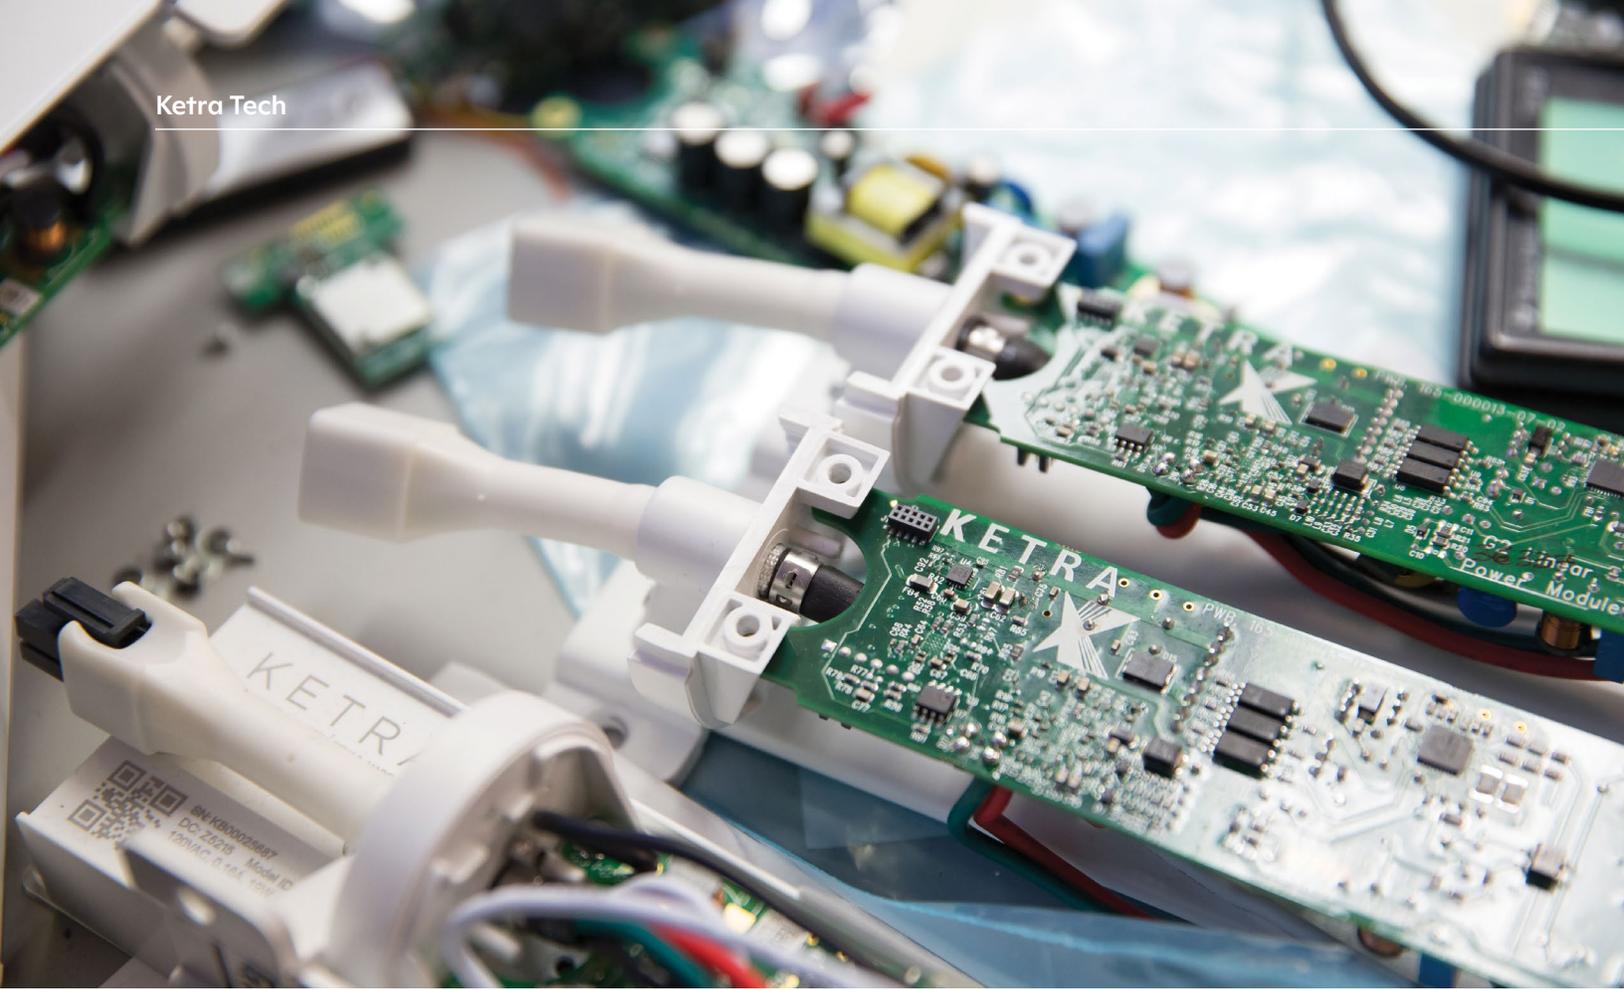

Elegance meets ease. Intuitively tune each layer of light to create a range of scenes that engage and inspire.

Experience the Ketra Difference

Flexible and Timeless Light

Timeless light for infinite personalization now and into the future.

Creating the Best Light in the World Meant Starting From Scratch

Ketra's system was built from the ground up with custom power electronics, precision optics, and a proprietary driver chip to deliver beautiful, high-quality light that is unrivaled in the marketplace. Ketra has received over 70 patents for our award-winning innovations.

- **High Def Palette** covers a wide range of 16.7 million colors, including pastels, saturated colors and high CRI whites spanning from 1,400K to 10,000K.
- **Dynamic Spectrum** precisely tunes the amount of energy across the visible spectrum to produce the following solutions.
 - Natural Light that follows the Black Body Curve and automatically shifts throughout the day to mimic outdoor light.
 - Natural Dimming that follows the Black Body Curve and mimics incandescent experiences — dimming to 0.1% and 1,400K to rival a candle's flame.
 - Vibrancy, an industry-first capability, manipulates the spectral power distribution of white light to reveal vivid color from artwork and treasured objects.
- **TruBeam** a breakthrough optical system, produces color uniformity across a wide range of beam spreads.
- **Color Lock** maintains your desired color point at a one-step MacAdam Ellipse across all Ketra product families and over each product's lifetime.

Customer Praise

"Ketra is the most exciting thing to have happened in home lighting technology."

- Tim Duffy, CEO Simply Home Entertainment

"Ketra eliminates all the traditional boundaries between light and control."

- John Newman, Loop Lighting

"Ketra is the biggest advancement I've seen in lighting in my twenty-year career as a designer."

- Sean O'Connor, Sean O'Connor Lighting

Innovation in Lighting

A few of our awards from the lighting,
technology, and interior design industries:

Designing the Future

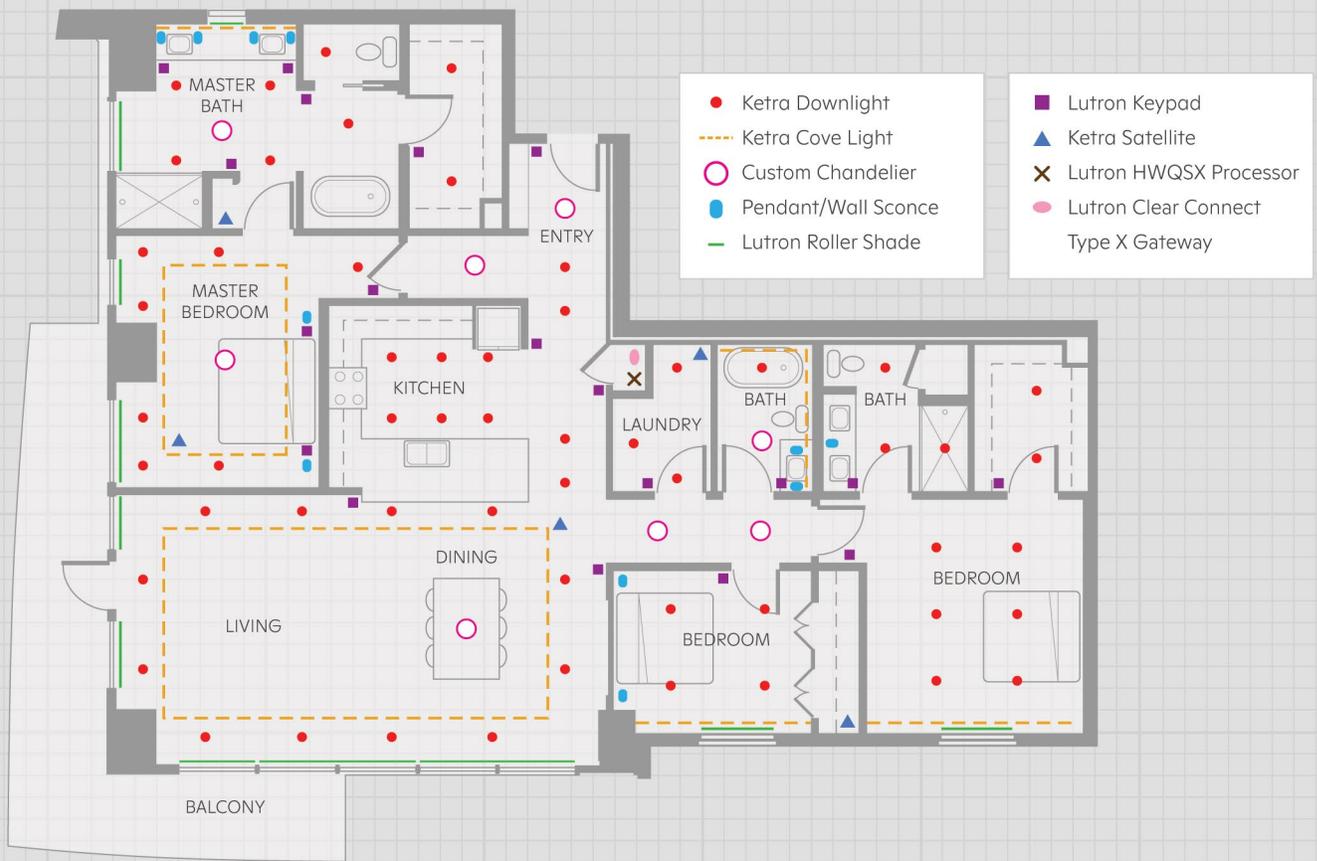

We collaborate with architects and lighting design professionals to advance the state of the industry and ensure that Ketra's products align with the latest trends and standards.

One Solution for Your Entire Home

In combination with Lutron's HomeWorks system, Ketra has made dynamic light accessible in any environment with a flexible, fully integrated lighting and controls solution.

Powerful Whole-Home Control with Lutron + Ketra

Ketra's integration with Lutron's HomeWorks lets you program Ketra lighting scenes through the same interface that controls motorized shades, premium home audio, security systems, HVAC and more. Control high-quality light and custom scenes from your phone, tablet, keypad or your voice.

Product	QTY
 D3 Downlights	56
 G2 Cove / Wall Wash	200'
 Custom 3rd Party Chandeliers	8
 A20 Lamp in Pendants / Sconces	11
 Lutron Palladium Shades	150'
 Lutron Palladium Keypads	19
 N3 Satellites	5
 Lutron HomeWorks QSX Processor	1
 Lutron Clear Connect Type X Gateway	1
Example floorplan of a 2,200 sq. ft High-Rise Condominium	

Product Applications

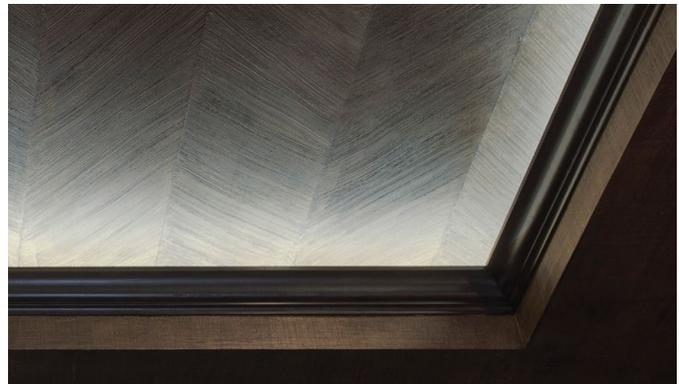

General Illumination

Deliver smooth, uniform coverage of your room with a range of trim and optic accessories. Use Ketra's low-profile downlight solutions for new construction or remodel/retrofits.

Accent Lighting

Use accent light to highlight special artwork or add visual interest and texture to your space. Ketra's G2 linear accent luminaire is ideally suited for cove, wall-wash and grazing applications.

Task Lighting

Optimize your visual comfort while reading or working with Ketra's family of standard screw base retrofit lamps.

Controls

Control Ketra's premium light and custom scenes with Lutron's HomeWorks system, which includes the Lutron Connect app, motion and light sensors, and a range of smart home voice control products.

Luminaires		Available Configurations
