

# INSTRUCTIONS

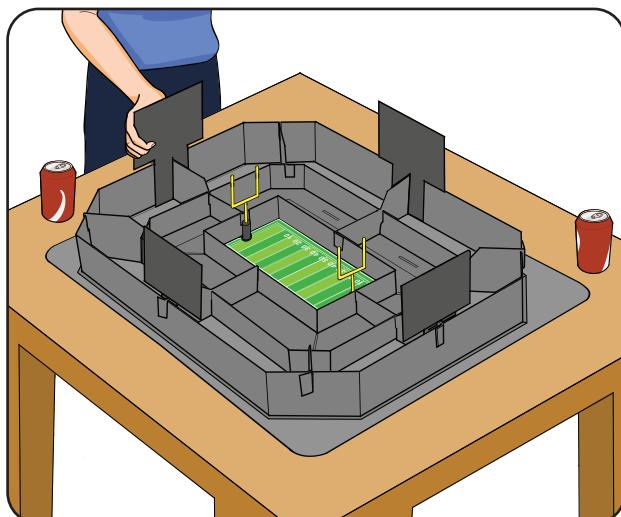

## Time To Build Your Snack Stadium!

Lay out all the pieces of your snack stadium tray on a flat surface.

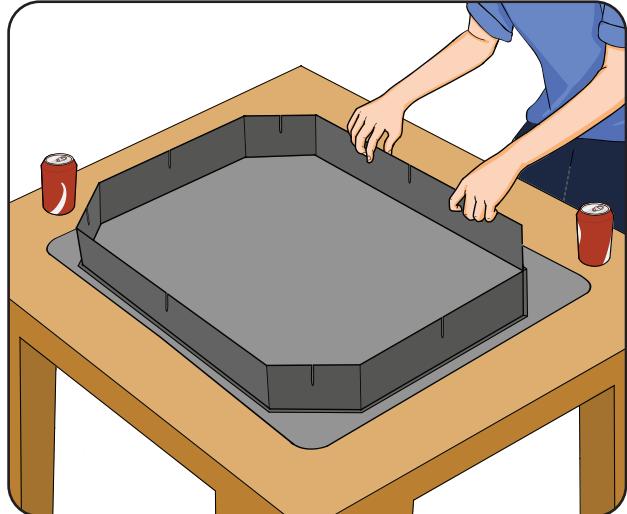

## Step 2: Insert the Middle Layer

Place the middle platform inside the stadium and use the 4 tab inserts to secure it to the main base.

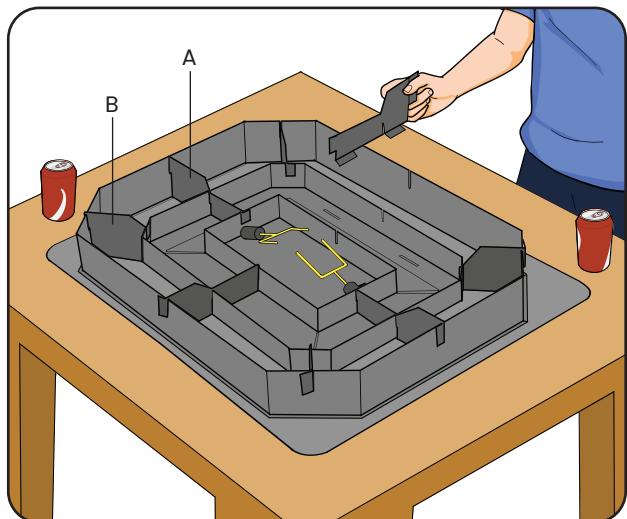

## Step 4: Add the Field + Final Touches

Place the field into the center. Pop up the field goal posts and insert the team signs at each end.

## Step 1: Build the Main Base

Unfold and connect the four corners of the stadium walls to create the outside border

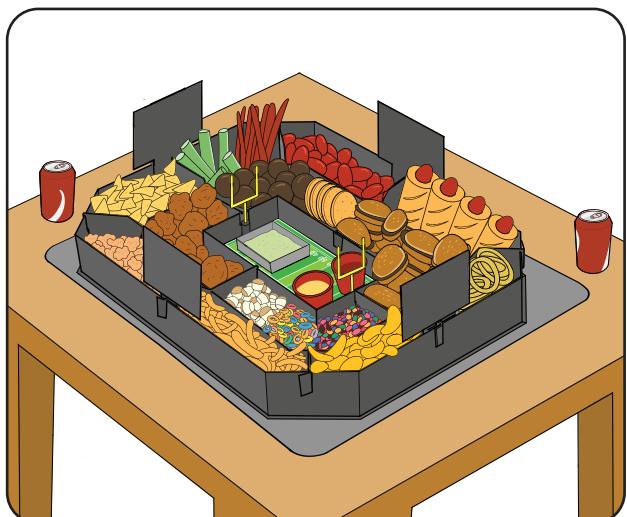

## Step 3: Add the Compartment Dividers

Use the labeled panels:

**Panels A** go perpendicular to divide and support the compartments.

**Panels B** fit into each corner for added stability.

You're ready to fill it up with snacks, dips, and game-day favorites. **Let the party begin!**
