

PROBE CARD REPAIR STAND FOR STEREO MICROSCOPES

The Probe Card Repair Stand is an accessory stand for stereo microscopes or other optical systems. It is designed to securely hold a wafer probe card in place for inspection and repair activities.

Features Include:

- ◆ Large stable stand to accommodate 13-in diameter probe cards
- ◆ Insert to accommodate 8-in diameter probe cards
- ◆ Y-axis movement on dual bearing system for smooth, trouble free operation through 15-in.
- ◆ Arbor Post for stereo microscope focus block allows the microscope to swing left and right for full coverage of probe card.
