THE PROBLEM

Internet users' behavior is rapidly changing. The world has entered into the era of web 3.0. The conventional modes of gathering information like **internet surfing** has gone. People are increasingly relying on the **AI search results** especially **voice assistants**

THE PROBLEM

Currently there's no system in place which allows the businesses to advertise on the responses of the voice assistants

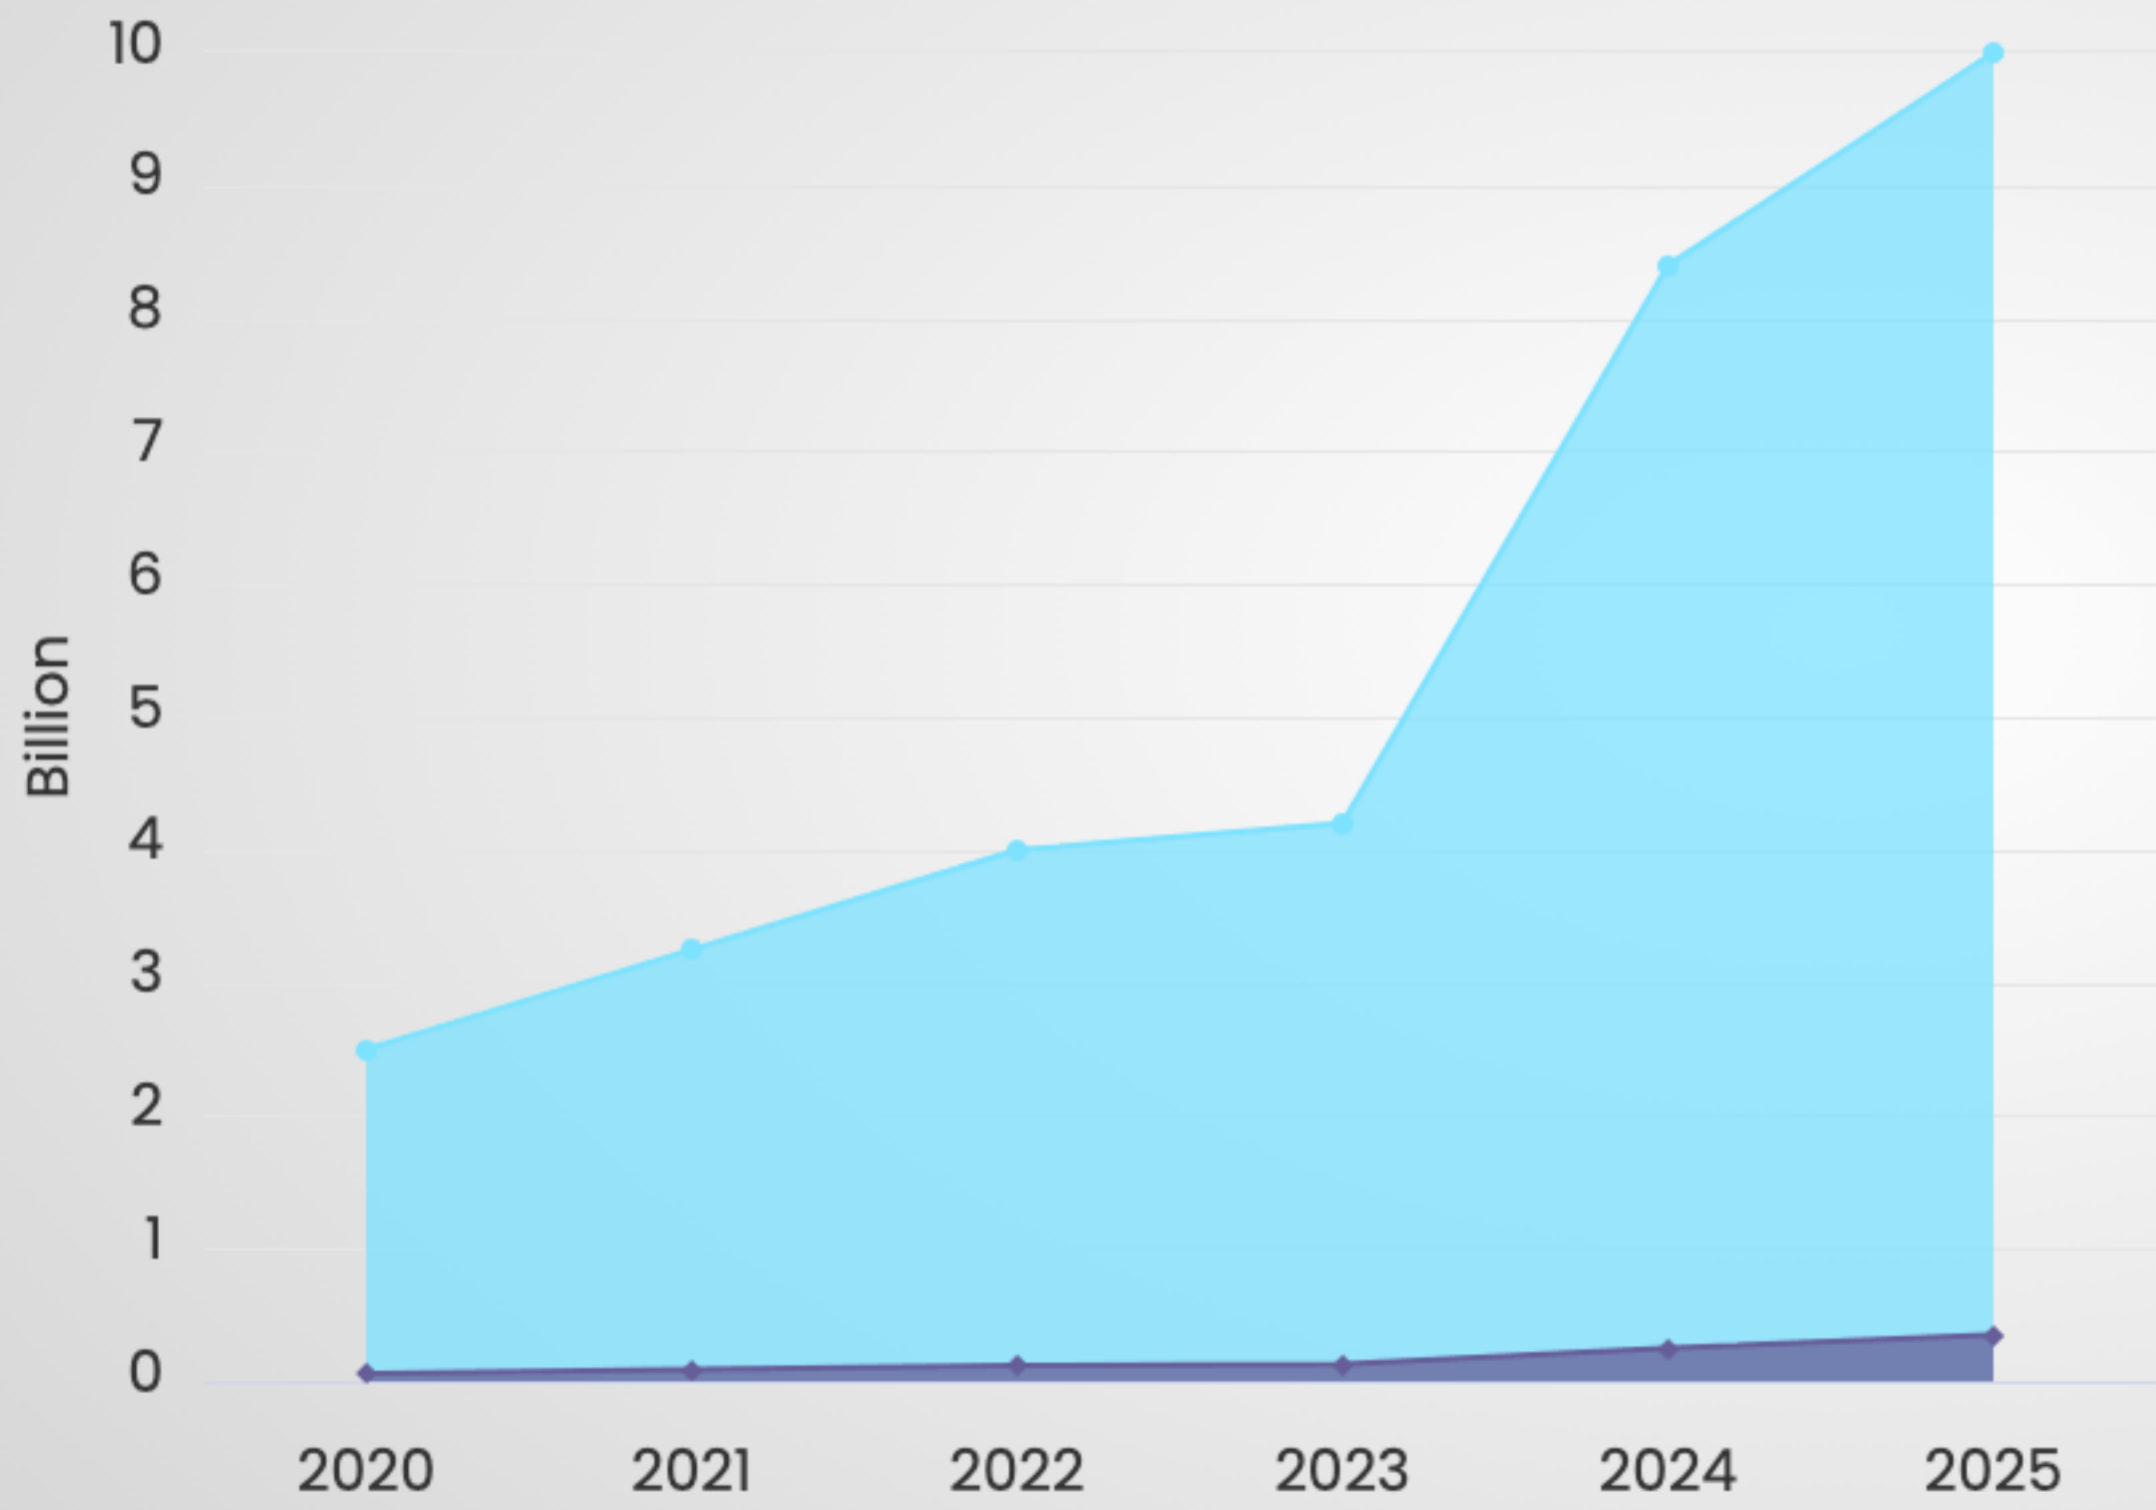

Huge markets are willing to pay for the advertisements like live business deals, job opportunities and promotions within the voice assistant searches

MARKET SIZE

Global users

4.2 Billion global users
With **200 Million** users in
the US currently

This market is expected to
grow at 15% annual rate

SOLUTION

Voicee is the future of advertising. Our patented AI-powered platform (patent #17408858) transforms text into dynamic, interactive voice ads for businesses of all sizes

This is a system which allows the businesses to advertise on the voice assistants and generate revenue from 200 million daily US users and 4.2 Billion Globally

Voicee is Multi-Pronged solution encompassing various aspects of voice commands and its application

BUSINESS MODEL

Think of **1voicee.com** as new-age Google Ads. Just like Google advertises on the search results, **1voicee.com** is able to advertise on the real-time voice assistant responses

Our software unlocks voice assistant integration for ALL platforms, targeting a global audience of over a billion daily users. Empower on-the-go consumers with instant, screen-free information

Our voice assistant platform empowers **newspapers and magazines** to offer **voice-enabled news delivery**, keeping readers informed on-the-go. **Advertisers** can even **self-serve ad placement** on chosen stories. This innovative solution revitalizes local news and fosters deeper reader engagement through the power of voice

Voicee own is a custom voice assistant that seamlessly integrates with your website or app. **Self-setup or expert development** ensures a perfect fit for your business. **Reach a billion daily voice assistant users** and **capture the voice commerce boom** with our **affordable solution**

PROPRIETARY TECHNOLOGY

- We hold a robust patent portfolio (US & International patents filed)
- Development began in 2014, establishing a strong lead with a fully functional solution
- Leveraging the power of voice marketing and AI combined
- Advanced analytics recording and reporting

COMPETITION

Internet advertisement companies offering PPC campaigns like Google ads. Its showing a declining trends as people are shifting towards AI chatbots

Existing advertisement going on social media companies. Like pixel but the ROI is very less for the advertisers. It lacks personalization and full of errors
