

Retrieve your 100% discount coupon code for Course 3:

When requested type in this coupon code (without the quotation marks "")

“c19competition”

When you log on to the Thinkific Course there are 3 courses to complete

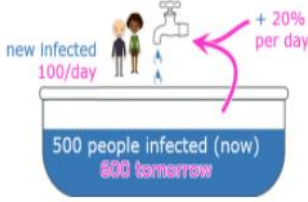

Learn how disease out-breaks work and how to assess a COVID-19 case

Complete both courses and you can localise our COVID-19 model to a chosen area, estimate what could happen next and compare strategies to improve future outcomes.

All Courses

Course 1: Modelling how a disease spreads - the basics!

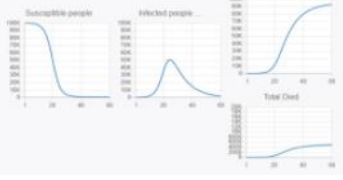

9 Lessons | Free

All Courses

Course 2: Setting up the Localised COVID-19 model for your chosen area

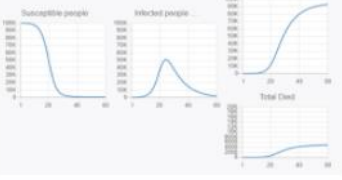

16 Lessons | Free

All Courses

Course 3: Matching the Localised COVID-19 model to the outbreak in your area

12 Lessons | Free

Course 1 and 2 are open access

Course 3 has detailed instructions for how to work through your analysis. You will need to work through this section to make a successful entry to the competition
