Subject: FOIA Request :: R178479-021726

Body:

March 10, 2026

RE: PUBLIC RECORDS REQUEST of February 18, 2026, Reference # R178479-021726.

Dear Requester:

The Michigan Department of Licensing and Regulatory Affairs (LARA) has received your February 18, 2026 request for records and has processed it under the provisions of the Michigan Freedom of Information Act (FOIA), 1976 PA 442, MCL 15.231 *et seq.*

You requested the following, in summary:

“Any final contract, statement of work, amendment, or similar agreement between LARA/CRA and METRC (or any affiliated entity) that references drafting, development, or preparation of the CRA “Compliance Best Practice Guide.”

Any final memorandum, policy document, or written record identifying the author or originating entity responsible for drafting the CRA “Compliance Best Practice Guide.”

Any final written record identifying revisions to the CRA “Compliance Best Practice Guide.” since its initial publication, including documents identifying the date of each revision and the entity responsible for making those revisions.

This request is limited to final records reflecting authorship or revision history and does not seek internal draft documents or informal communications.”

Your request has been granted.

The records are available in the [FOIA Center](#). Per LARA-CRA:

Enforcement inherited the Best practices guide from a section within the agency that no longer exists (OSS). We do not have previously revised drafts of the Best Practice Guide as it is a working document. Any changes or revisions are made directly to the document itself, therefore any previous edits or versions do not exist within the agency. For your convenience we have provided the most recent version of the Best Practice Guide. These updates were made February 2026, which supersedes the July 2025 edition.

Please note: these records will be available in the FOIA Center for 365 calendar days and will then be
