**Solar Rebates and Tax Credits**

**Tax Credit from the IRS**

The federal Investment Tax Credit (ITC), has been extended. Owners can deduct a percentage of the cost of new residential and commercial solar from their taxes:

**Tax credits** in 2019 for customers of one major installer averaged: **$5,000**

**The future credit % will be reduced:**
- 2020: 26%
- 2021: 22%
- 2022: 10%

**Rebate from Oregon Department of Energy**

In early 2020 the ODOE will offer a cash rebate for residential installations of solar electric systems and associated electric storage systems.

- **Rebates** for residential solar electrical systems, up to: **$5,000**
- **Rebates** for residential solar storage systems up to: **$2,500**
