**School Strike 4 Climate**

**If you won't act like adults, we will!**

**Climate change is not policy.**

**How to Climate Strike...**

1. Talk to your family and teachers. Tell them why you are doing this.
2. Record a video explaining why you are striking and what you stand for.
3. Share the strike on Fridays.
4. Talk to your friends and teachers. Tell them why you are doing this.
5. Hold a creative campaign. Make signs, write letters, etc.
6. Call your leaders and influencers. Call them to join you.
7. Create an online petition.
8. Share photos and videos of #FridaysForFuture.

**What is inconvenient?**

- And rising levels of carbon despite the facts.
- Why there has been no action or effort to engage our political system.

**What is happening to our climate?**

- You can learn more about the science behind climate change.
- You can learn about the impacts of climate change.
- You can learn how to talk to people.
- You can learn about the science behind climate change.

**What is happening?**

- You can learn about the science behind climate change.
- You can learn about the impacts of climate change.
- You can learn how to talk to people.

**How to act?**

- Walk out of school whenever you think it is best.
- Make a sign explaining why you are doing this.
- Call your leaders and influencers. Call them to join you.
- Create an online petition.
Climate change is part of a larger ecological crisis.

We shall overcome.

Nonviolence is our justice issue.

Because we know, because it is right, because it is the work of love, the poor, vulnerable, voiceless, and marginalized will be hurt worst.

We go to: fridaysforfuture.org, schoolstrike4climate.com

There is a world wide movement to call on governments to keep warming below the detrimental level of 1.5°C and protect our future.

CLIMATE STRIKE

A world wide movement

Eco-logical crisis

is your edge.

Do you feel your brain?

We are

NONVIOLENCE

IS OUR JUSTICE ISSUE
Some people say that the climate crisis is something that we have created, but that is not true, because if everyone is guilty then no one is to blame. And someone is to blame. Some people, some companies, some decision-makers in particular, have known exactly what prices values they have been sacrificing to continue making unimaginable amounts of money...

And I want you to act. I want you to behave like our house is on fire...

**BECAUSE IT IS.**

- Greta Thunberg

**TO GLOBAL LEADERS AT DAVOS 2019**

---

Some people say that I should be in school instead. Some people say that I should study to become a climate scientist so that I can "solve the climate crisis." But the climate crisis has already been solved.

We already have all the facts and solutions. And why should I be studying for a future that soon may be no more, when no one is doing anything to save that future? And what is the point of learning facts when the most important facts clearly mean nothing to our society?....

---

WHAT TO DO?

- You can ask your parents and friends to do the same.
- Best, believe it or not, contact them by fax.
- Better, if you can visit them in person.

Whether you are old enough to vote or not, you can and should call your senators and representatives.

- You can contact your local legislators too.
- You can ask your parents and friends to do the same.

---

Greta Thunberg
**Extinction Rebellion**

"The climate has already warmed by 1°C (2017). Warming in excess of 3°C is likely to be a global catastrophe."

**US Demands**

1. That Government must tell the truth about climate and wider ecological emergency, and must reverse all policies not in alignment and work with media to communicate urgency...

2. That Government must enact legally binding policies to reduce carbon emissions to NET 0 by 2025 and take further action to reduce the excess of atmospheric greenhouse gases...

3. We don’t trust our Government to make bold, swift, and long-term changes necessary… We demand a Citizens' Assembly to oversee the changes.

4. We demand a just transition that prioritizes the most vulnerable.
