

**We Need Your Support to Preserve the Future of
Artists and Community
JOIN**

The Affinity Circle of Patrons, Collectors and Sponsors

As an advocate for the arts, you understand the profound role creativity plays in shaping culture, fostering dialogue and building community.

We invite you to join a new initiative for Suncoast Black Arts Collaborative called The Affinity Circle of Patrons, Collectors and Sponsors who understand the importance of building legacy. This initiative is designed to uplift and support economic prosperity for emerging, professional and exhibiting artists of African descent and BIPOC populations. By creating dynamic partnerships between visionary and progressive connections, this initiative aims to break barriers, nurture authenticity, and foster transformative connections across regional and cultural communities.

Through the development of Affinity Circles, SBAC anticipates creating sustainable outcomes that will support artists of color and enhance and enlarge their presence within the community. This includes the continued development and successful Art Innovation Zone Exhibitions, as well as SBAC's sister program "Steppingstones" which brings business education to our artists in areas that they are unfamiliar with such as, financial, legal, marketing & communication, strategic planning and brand building.

In America we are experiencing an intensity of divisive movements taken against race and culture. Therefore, as a community we must protect the arts as a rich part of American history, emotional joy and celebration.

We believe your interest in Suncoast Black Arts Collaborative demonstrates and is essential as a unique influence and passion for the arts. By joining an Affinity Circle, as a Patron, Sponsor or Collector, you will become part of a visionary community dedicated to ensuring that creativity of talented artists of African descent and BIPOC populations resonate boldly, enriching not only our local artistic heritage but also the broader cultural narrative.
