Mission: To nurture creativity and authentic expression, unifying and promoting the power of the arts across the regional and cultural landscape.

Theme: Elevating Artists of African descent and BIPOC populations Beyond Regional Boundaries bridges communities, amplifies voices, and celebrates artistic excellence. We empower artists, fostering creativity that transcends borders. Through inclusive exhibitions and innovative programming, we cultivate a more vibrant and culturally enriched Suncoast where diversity thrives, skills flourish, innovation is encouraged, and economic prosperity can bloom. Collaborations with the Tampa Museum of Art, The James Museum, Sarasota Art Museum, and The Pérez Art Museum, along with Arts and Cultural Alliances in Sarasota and St. Petersburg, work towards a transformed creative landscape where artists of African descent and BIPOC populations are celebrated, supported, and empowered to contribute and be included in the creative cultural fabric of the Suncoast.
