About **Blaze 400 D/G Turbo**

Designed to meet the particular needs of the rental market, the low amp draw (8.5 A) and high static capabilities makes the Turbo adaptable to unpredictable environments.

The sleek and compact design (76.7" x 31" x 57.6") combines efficiency with high performance making the 400 Turbos adaptable to various heating and drying applications.

Capable of 3" of static pressure, it comes equipped with Whisper Quiet Operation, 220°F Heat Rise and Air Recirculating Capabilities.

Rental rugged and designed for durability, each unit comes equipped with a lifting bar and forklift pockets.
