◆ **Session 1: Orientation to ECHO & Overcoming Barriers in Kidney Transplantation-** **Thursday, October 1, 2026**

- Identify barriers in the ESRD population (age, race, disability, health literacy)
- Understand the social and behavioral determinants of health that create inequities
- Learn evidence-based strategies to mitigate barriers

◆ **Session 2: Help Me or Hurt Me? – The Benefits & Risks of Transplant vs Dialysis-** **Thursday, October 8, 2026**

- Compare long-term outcomes on dialysis vs transplant
- Recognize risks associated with both options
- Explore impacts on patient quality of life

◆ **Session 3: Let's Be Candid About Candidacy – Who Qualifies for Transplant?** **Thursday, October 15, 2026**

- Define which patients benefit most from transplantation
- Understand absolute contraindications to transplant
- Explore relative contraindications and barriers to eligibility

◆ **Session 4: Hate to Wait! Navigating the Waitlist** **Thursday, October 22, 2026**

- Break down the steps of the listing process
- Understand expected timeframes from listing to transplant
- Learn requirements for staying active on the transplant list

◆ Session 5: Wanted – Dead or Alive! Understanding Donor Options-
Thursday, October 29, 2026

- Compare living vs deceased donor transplant options
- Weigh the pros and cons of each pathway
- Understand living donor risks and recovery
