

COVID 19 / Coronavirus

With all the news about COVID 19 and the spread of Coronavirus in Australia, I want to touch base with our participants and their support networks offer some peace of mind that your NDIS Support Coordination services will remain as normal as possible during this difficult time.

At Simply Support Connection, we have put measures in place to ensure that our services will operate as best that we can.

In order to minimise the potential spread or contamination to staff and participants, we have decided to cancel all non-essential face to face consultations and appointments until further notice. We will use alternative options such as skype and phone meetings.

Our registered participants have received in the post two booklets to read through. The first provides easy to read and understand information about COVID 19 published by "The Growing Space". The second is a RediPlan booklet to help you ensure that you are prepared in any emergency published by "The Red Cross". It is suggested that participants read and work through these with a family member, support worker or Carer. These booklets are also available to download from our website.

Please do not hesitate to get in touch with us if you have any concerns or worries on 0477 453 573 or email at sharon@simplysupportconnection.com.au
