What are We All About?

Learn about real (Prototype) trains and transportation systems as well as how to build and operate your own layout or dioramas. Explore the many faceted ways to enjoy our hobby from research, building models, art, photography, videography, sculpture, planning, operating, and enjoying the comradery of like minded friends.

Our hobby is much more than just running Model Trains! We learn to really look at our surroundings and find ways to recreate what we see or imagine them to be. There are no hard and fast rules to how you enjoy this hobby. We freely share our ideas and techniques with all who are interested. If you want to know how to do something or the history of a prototype or area there is usually someone who can help you with your quest.

There is opportunity to buy or sell train related items to complete or to start your collection of models, books, videos, tools or whatever.

Come and see what can be done at one of our meetings!

All are Welcome!

Willamette Cascade Model Railroad Club

The Oldest & Largest Model Railroad Club In The Eugene-Springfield Area

Our club was established in 1970 with the goal to educate, promote and share the joys of model railroading to all age groups and skill levels. As of this date we have 75 members, who have exhibited our love of model railroading throughout the area. We have displayed our modular railroad as well as related educational and informative activities at Valley River Center since 1979, and have sponsored a swap meet at the Lane County Fairgrounds since 1988, and annually at the Oregon Logging Conference, and at the Lane County Fair. We have also had shows in Cottage Grove, Drain and North Bend.

We helped in the preservation of the Springfield Depot by donating countless hours in the restoration work and thousands of dollars to help see the Springfield Depot project through to its completion along with others in the Eugene-Springfield community.

We take pride in being a multi-scale model railroad club. There is a camaraderie between the members at the club meetings and train shows. We learn from each other, people share what is going on, new things they have learned on trains or modeling tips, pictures they have taken, even drone pictures! There are also clinics and videos. The club issues a monthly newsletter to all members.

We invite you to attend our club meetings on the 2nd Saturday of each month at the Springfield Depot Freight Room on the corner of Pioneer Parkway and South A Street, in Springfield. The club business meeting starts at 7:00 p.m. with the general meeting starting at 7:30 p.m. and you are invited to attend up to 3 meetings and then decide if you want to become a member of our club.
