

Below is our marketing promotion campaign for the project launching invitation to our prospective real estate investors.

We wish to share with you the business opportunities we are actively campaigning . . . seeking a hopeful partnership we could build together by filling the strengths in building a truly successful project development initiatives like what we have at the **100 Ha. Smart-City, Eco-Friendly Township-Mixed Use development for commercial, residential, hotels and industrial hub** we intend to build and start a marketing soft lunch by this 1st week of November 2020.

Please find here >> <https://urcmarketing.com/featured-open-properties> for the latest update we have compiled for the project background, kindly take a moment to review and send any questions you may have the soonest convenient to you.

URConnect Marketing Services primary strengths are having these incredible properties entrusted to us to be under our marketing management to bring out its unlimited potential at the highest profitability or for the most fruitful gain this could generate within our initiatives and capacity.

We have projected the value of at least **19 of prime properties under our management** to be in **Php 20B** should we be successful in selling or developing these properties. These prime listings are continuously growing within our marketing portfolio. We need to be certain that everyone sees the value of these opportunities we bring on the table.

We have outlined more strengths we need to fill in to guarantee our success as follows:

The second primary value strength we bring is our Marketing expertise to showcase your unlimited potential for your growth by bringing your assets/services and your professional capacity to our network of reputable businesses who could be your potential consumers through a business-to-business networking.

The third primary value strength we bring is our Risk Management approach. We openly partner with established and reputable financial institutions and insurers. We have our own internal underwriters under a retainer's arrangement to guarantee each of our Equity Investors value at a very reasonable yearly minimum premium possible.

Surprisingly, we have a fourth primary strength... we bring a cutting-edge technologies that would aid our capacity for better transparency to our stakeholders in partnership with Microsoft Technologies.

We are into **Fin-Tech (Finance Technologies)** and **Insure-Tech (Insurance Technologies)** leading innovators with our **URSmart-Contract** digital property/asset title-vault and **UROnePay App** re-insurer software development plan with an estimated of at least in **Php 6 B** insurance reserved and **Php 10 B revenue** for projected 1 million respondents in 3-5 years' time. We had prepared a separate presentation and a whitepaper for this business plan.

*And Yes, we bring the fifth element of our primary strength . . . we have our network of individuals and businesses with highest integrity, and the **URC-MS** team who bring all these opportunities now on our table. 😊*

It is a wonderful future ahead of us all, may all the stars aligned to our endeavor to serve each other and the communities and businesses who would benefit with all our strengths we bring together!

Thank you so much for your time and hope you enjoy a wonderful day! :)

Yours Sincerely,

Entrepreneurs for Marketing Research, Sales Campaign, Advertising, Solution Creation, Market Innovation Strategies & Risk Management
