Replacement Instructions

1. Confirm that the existing mailbox needs replacement.
2. Purchase the approved mailbox and number sticker set listed in this guide.
3. Remove the damaged or old mailbox from the existing post.
4. Install the approved mailbox securely on the existing approved post or a compatible replacement post.
5. Apply the mailbox numbers neatly and consistently using the approved 3-inch black-and-gold number stickers.
6. Ensure the mailbox is level, secure, and visible from the street.

Homeowner Notes

- Replacement mailboxes should match the approved community-wide style.
- Mailbox numbers should be applied in the same general location and orientation as neighboring mailboxes.
- If the existing post is damaged, homeowners should confirm the approved replacement post style before purchasing a new post.
- Homeowners are responsible for keeping mailbox numbers visible and in good condition.
