# ABOUT US

The story began at the beginning of the '80s in the small village of Denizli, Turkey that carries traditional textile roots for hundreds of years. In the beginning, the grandfather was weaving table linen for some well-known brands.

In the '90s, he handed the factory down to his daughters, the sisters transformed the business the knitting weaving. After the 2010s, they reverted back to the linen&towel weaving business.

3rd generation started to manage the company three years ago and with the new, fresh blood enabled to carry the family business overseas

ADEA exports to 10+ countries on hospitality and home textile has a warehouse in Germany to transport the goods inside Europe easily.
