

Soul Science Ministries – 2025 Impact Summary

Mission

Soul Science Ministries equips the Church and engages the public at the intersection of theology, science, philosophy, and culture.

Programs

- Tapping Theology – Monthly public theology gathering in Alabaster, Alabama.
- Raising Christian Families – Educational course equipping parents to integrate Christian faith with science and culture.
- Common Table – Monthly discipleship dinners focused on conversation, formation, and community.
- Speaking Engagements – Teaching and conference presentations at churches, universities, and organizations.

Impact Since 2023

- 24 Tapping Theology events hosted.
- 150+ participants engaged.
- Raising Christian Families course launched.
- Monthly Common Table gatherings fostering theological dialogue.
- Public debates and scholarly conversations addressing faith, science, and culture.

Global Partnerships

Croatia • Pakistan • Europe

Outcomes

- Expanding global theological dialogue.
- Equipping Christian families and church leaders.
- Strengthening Christian engagement with science, philosophy, and culture.

Testimonial

“Soul Science Ministries offers a distinctive apologetic for the Christian view of science, technology, and what it means to be human.”

— *Jerry L. Walls, Professor of Philosophy, Houston Christian University*
