ABOUT PROPTECH HUB WA

PropTech Hub WA is a Western Australian initiative bringing together innovators, investors and industry to drive real-world solutions for the WA property, construction and technology sector.

We pioneered the transformation of Perth into Australia's PropTech Capital, as declared by the Government of Western Australia and the City of Perth, and continue to build on this momentum across the state.

Measured through national performance benchmarks and a structured, month-on-month innovation program delivering real outcomes for our members, we connect people, ideas and capital to accelerate innovation, support commercialisation and create opportunities that strengthen WA's economy and communities.
