### SERVICES & PRICES

Note: Services listed below may be subject to an added travel cost of R4,50 per km. All services below may also be subject to extra added costs for accommodation, air travel, vehicle hire, Uber, parking and/or toll fees that may be added on if applicable.

POLYGRAPH TESTS	DETAILS
Diagnostic Test	<p>Investigate and resolve a case of a specific incident of concern (murder, theft, rape, sexual assault, leaking of confidential information, accident, negligence and so forth) to find out if the suspect is responsible for the illicit activity or not or to trim larger groups of potential suspects down to help your investigation move forward.</p> <p>The results from diagnostic tests can be used to verify suspicions and uncover valuable leads.</p> <p>Diagnostic tests can also be customized to case or investigation specific needs.</p> <p>Each test can take between 1:30 to 3:00 hours and consist of 3 to 4 relevant questions.</p> <p>Full written report supplied in 48 hours max.</p>
Pre-employment Screening Test	<p>Test prospect employees regarding their history in your specific areas of risk (theft, financial problems, qualification fraud, links with criminal groups, drug abuse, reasons for leaving previous employment and so forth) to uncover traits that could jeopardize your business or company before you decide to hire them or not.</p> <p>These tests assist in the future risk management of the company and assists in preventing problems before they occur.</p> <p>Pre-employment tests can also assist in expose previous undetected workplace crime/misconduct for which no paper trail exists.</p> <p>If you suspect foul play by your competitors, these tests can also be made to test for industrial espionage.</p> <p>Pre-employment tests can be customized to company specific needs.</p> <p>Each test can take between 1:30 to 3:00 hours and consist of 2 to 4 relevant topics.</p> <p>Full report supplied in 48 hours max.</p>
Routine Screening Test	<p>Test current staff on a routine or periodic basis (every 3-6 months is advised) to see what they have been doing (theft, drug use at work, misuse of company property, leaking of confidential company information and so forth) over a specific period of time (since they have been employed, in the last year of employment, since the last polygraph test) or for behaviors defined as risks to the company.</p> <p>These tests help in the possible recovery of losses and to prevent problems for the future.</p> <p>Staff who know that another polygraph tests is coming are deterred from unwanted behavior and other forms of illicit conduct as a result. Routine tests can be customized to company specific needs.</p> <p>Each test can take between 1:30 to 3:00 hours and consist of 2 to 4 relevant topics.</p> <p>Full report supplied in 48 hours max.</p>
Guilty Knowledge Test (CIT)	<p>These tests help to identify a guilty person by way of detecting his/her knowledge about the illicit activity that could only be known by the guilty person and not the truthful ones.</p> <p>These tests are very helpful in trimming down potential suspects from the larger group.</p> <p>Length of time required to conduct these are situation specific.</p>
Infidelity/Sexual Activity Test	<p>This test is a personalized polygraph examination of the person you suspect of being unfaithful in your relationship.</p> <p>It is constructed around the client's specific requests and adhere to strict confidentiality ensuring complete privacy.</p> <p>Some examples are illicit sexual relations, engaging in any sexual activity, use of escort or prostitution services, secretly dating or rendezvousing, engaging in online cybersex or pornographic sites.</p> <p>Each test can take between 1:30 to 3:00 hours and consist of 2 to 4 relevant topics.</p> <p>Full report supplied in 48 hours max if requested.</p>

<b>SPECIAL INVESTIGATIONS</b>	<b>DETAILS</b>
