STAR GATE CATTLE

Welcome to the 5th annual Star Gate Cattle Bull & Bred Female Sale. We've sorted it down to a solid set of 75 coming 2-year-old bulls and 25 bred heifers we'd like to show you. We're grateful for the growth and progress our company has made, and we know that's possible because of our great customers. Thank you for your support.

At SGC we believe in purpose-built cattle, and then matching them to their environment and intended use. Whether you're looking for Angus bulls with proven maternal genetics and fleshing ability, SimAngus bulls that will add heterosis and performance from start to finish, or heifer bulls with genomic enhanced EPDS that will protect your investments, we have something to fit your needs and elevate your herd going forward.

At SGC the work doesn't just stop at selecting the right genetics. We believe in developing bulls with the needs of the customer in mind. Our bulls are all age advantaged to provide greater durability and get more cows bred. The average yearling bull only settles 40% of the females he services while the average 2-year-old bull settles over 60%. Less total mountings means a tighter calving window and less chances for injury. These bulls are primarily developed in a strip grazing or rotational grazing system, rather than solely in the feedlot. In this setting they learn how to respect a hotwire, how to move off a dog or horse and how to find feed outside of a bunk. You won't find us feeding hot rations, trimming any feet, or selling over conditioned bulls that will melt off when turned out. We're confident enough in the way our bulls have been bred and developed that we offer a 4-year warranty on every 2-year-old bull we sell. We have had great success with our warranty and the limited amount of claims that we have is a reassurance that what we're doing is working. Go to page 4 to view details.

At SGC we also do our best to be thorough in breeding, developing, and managing our females. We are big believers in time tested maternal genetics. We cull heavily on feet, legs, udders, pelvic scores, reproductive efficiency, fleshing ability, longevity, mature size, eye appeal and temperament. Accordingly, our seed stock herd has no dams with balloon udders, no bad feet, no poor mothers, and no hot temperaments. This allows you to buy with confidence, and lets you know that you're not buying a problem. All females have been appropriately managed, vaccinated, wormed, and have been pregnancy checked by Dr. Ben Sukowaty. All females have been AI'd on June 23 to Capitalist 316 and then limited to an exposed breeding window of 30 days. That gives an estimated start date of April 1. All heifers have been cleaned up with SGC registered Angus calving ease bulls.

4-YEAR BULL GUARANTEE

As part of our aim to provide bulls that will withstand the roughest conditions and be profitable to ranchers, we offer the following warranty: All 2-year-old bulls sold by Star Gate Cattle will be guaranteed against injury that renders them incapable of breeding or to be a potential breeder, except those circumstances listed below.

This guarantee only applies to the original purchaser. This guarantee also only applies to bulls that have been maintained, at all times, by the original purchase for standard beef breeding practices and under normal breeding conditions. Bulls must also have been maintained in accordance with good animal husbandry methods and management.

All claims shall be resolved in the following manner:

The guaranteed credit shall equal the original purchase price of the bull multiplied by the appropriate percentage (based on when the injury occurred), less an agreed upon salvage value. This amount shall be credited to the owner for the purchase of one bull from either the present inventory of Star Gate Cattle or at the first proceeding Star Gate Cattle bull sale. If the credit is not used at either of those times, then it will become void.

The amount credited is as follows:

- 100% from the time of purchase until bull is turned out to cows (no later than July 1st)
- 80% from 1st turn-out through October 1st of the same year.
- 60% throughout 2nd year
- 40% throughout 3rd year
- 20% throughout 4th year ending with the 4th anniversary of original purchase

To make a claim, the original owner must contact Star Gate Cattle within 4 days of the discovery of the injury. They must also possess a document of the injury, signed by a licensed veterinarian. Star Gate Cattle reserves the right to have an agent of their own choice verify the injury and documentation of such. If any claims are denied by Star Gate Cattle, the original owner must then respond with a written legal explanation of why the guarantee should apply or forfeit all rights to any guarantee on the bull in question.

Exceptions not covered by this warranty include, but are not limited to:

Injuries or loss caused by motor vehicles, equipment, or trains. Injuries or loss from drowning, predation, or caused by acts of Nature/God (lightning, tornados, blizzard, bitter cold, fires). Injuries or loss from disease, feed intake, or poisoning. Injuries or loss from man-made causes. These include acts of war, acts of terrorism, radiation/nuclear, confiscation, quarantine, theft, malicious or willful injury to animals, carelessness, or neglect.

In the event of sudden death an autopsy must be performed within 24 hours by a licensed veterinarian to determine cause. Without a written report and identified cause, we cannot offer any compensation.
