Fireboy Fire Control System, Aircept Crankcase Ventilation System

Overhead Rod Holders, Overhead Handrails, Updated LED lighting strips

20 Gallon Water Heater **(2023)**

25 Gallon Oil Storage Tank

Narrative-

The engines have been oil sampled religiously with no bad results ever. The oil and then the fuel filters/oil filters and Racors get changed every 200 hours. The generator is serviced the same way. The transmission oil/filter gets changed every 300 hours

We have valve lapped the engines ahead of Cat's schedule to be safe at 800 hour intervals. Last 1000 hour inspection was done less than 300 hours ago.

All sanitation valves and hoses along with all toilets have been refurbished recently. The hydraulic lift was recently overhauled

Bottom paint 2024 with touch up April 2025

Props tuned and new cutlass bearings April 2025

Hull sides 3 step polished and sealed April 2025. All sun exposed surfaces ceramic coated February 2025

The yacht is wired for and will accommodate a #2 generator. All fuel and electrical and remote wiring is in place if you desire to have a #2. Plug and play so to speak

Nothing has been left to chance on this boat...ever. Substantial spares come with it. The tender is negotiable.

The yacht is owned by Someday Somewhere LLC. The LLC can be purchased or transferred at closing.
