

# September 19<sup>th</sup> is the day...

PROTECT  
MAPLE VALLEY PARK

RALSTON CREEK TRAIL

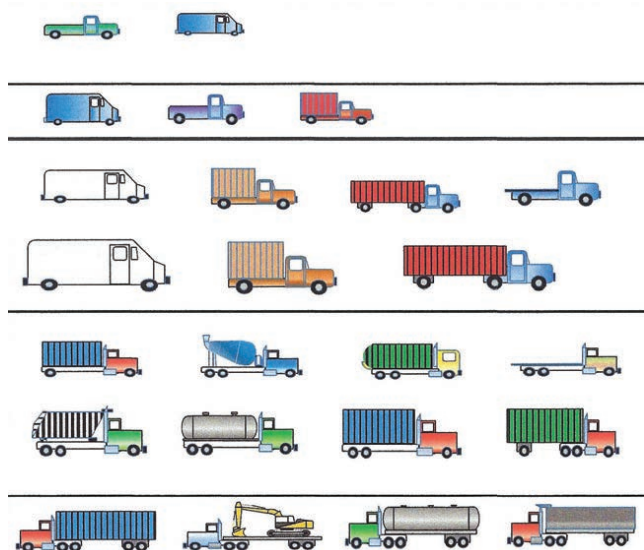

***Our mission is simple... working together to protect our community and quality of life in the Ralston Valley.***

Over the past year, RVC has been following the process with the proposed LDC Amendments, met with city staff and elected officials and shared our concerns on how their proposed changes will affect the community and we thank them for taking the time to hear our concerns. Several amendments such as increasing the notification radius and 'call-ups' are positive changes but THE DEFINITION OF A TRUCK AND THE NUMBER OF TRIPS is of utmost concern.

RVC will present a "Citizen Crafted" Proposal to the LDC for consideration on Sept. 19th so please join us at the Arvada City Council Meeting at 6pm to engage in the civic process and help us protect our community.

To learn more about the city staff's proposed changes to the LDC visit [www.arvada.org](http://www.arvada.org). Plan to attend the RVC Community Zoom Meeting on Sept. 15th at 6:30pm to learn more about what the community is proposing.

***Let us know you are coming to the City Council Meeting by signing up with QR Code!***

## TRAFFIC IS A MAJOR CONCERN

The LDC will determine the type and amount of truck traffic that is allowed in industrial developments, which will generate the traffic associated with that zoning.

### WHY IS THIS IMPORTANT?

Protecting what is allowed in light industrial zoning will protect our community from incompatible land use and heavy industrialization.

**TO LEARN MORE ATTEND THE RVC COMMUNITY ZOOM MEETING ON SEPT 15<sup>TH</sup>**
