

How will a Mountain Rail Station in West Arvada impact our community?

The Mountain Rail project is considering building a train station in West Arvada. If you live in this area there will be impacts to parking, traffic and recreation. The HB1313 mandate to build high density around transit hubs could further change the character of this area. Now is the time to engage in the public input process as CDOT explores the path forward with this project.

The [Ralston Valley Coalition](#) and their community partners are encouraging the community to attend the next CDOT Public Open House in person or [Watch the Livestream](#) courtesy of RVC.

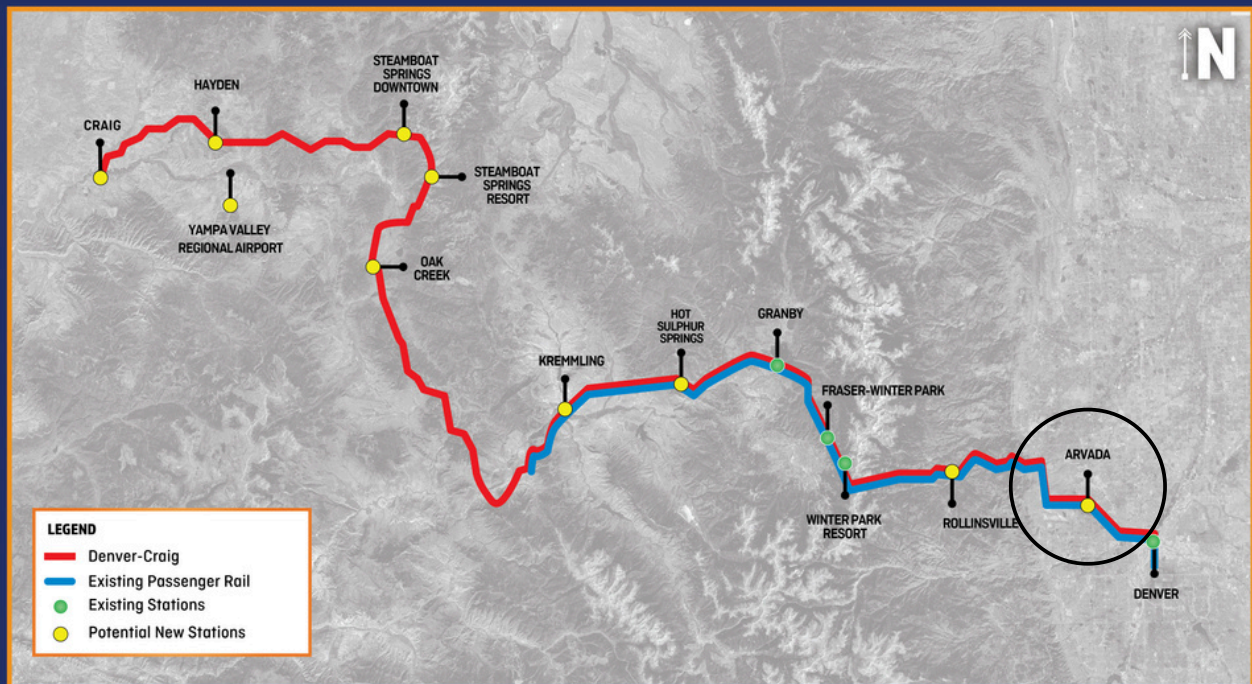

Colorado Mountain Rail - Preliminary Design and Planning

Presented by CDOT: Public Open House

December 11, 2024 5:30pm to 7:30pm

Storyline Church

14605 W. 64th Avenue Arvada, CO 80004
