ABOUT THE OWNER

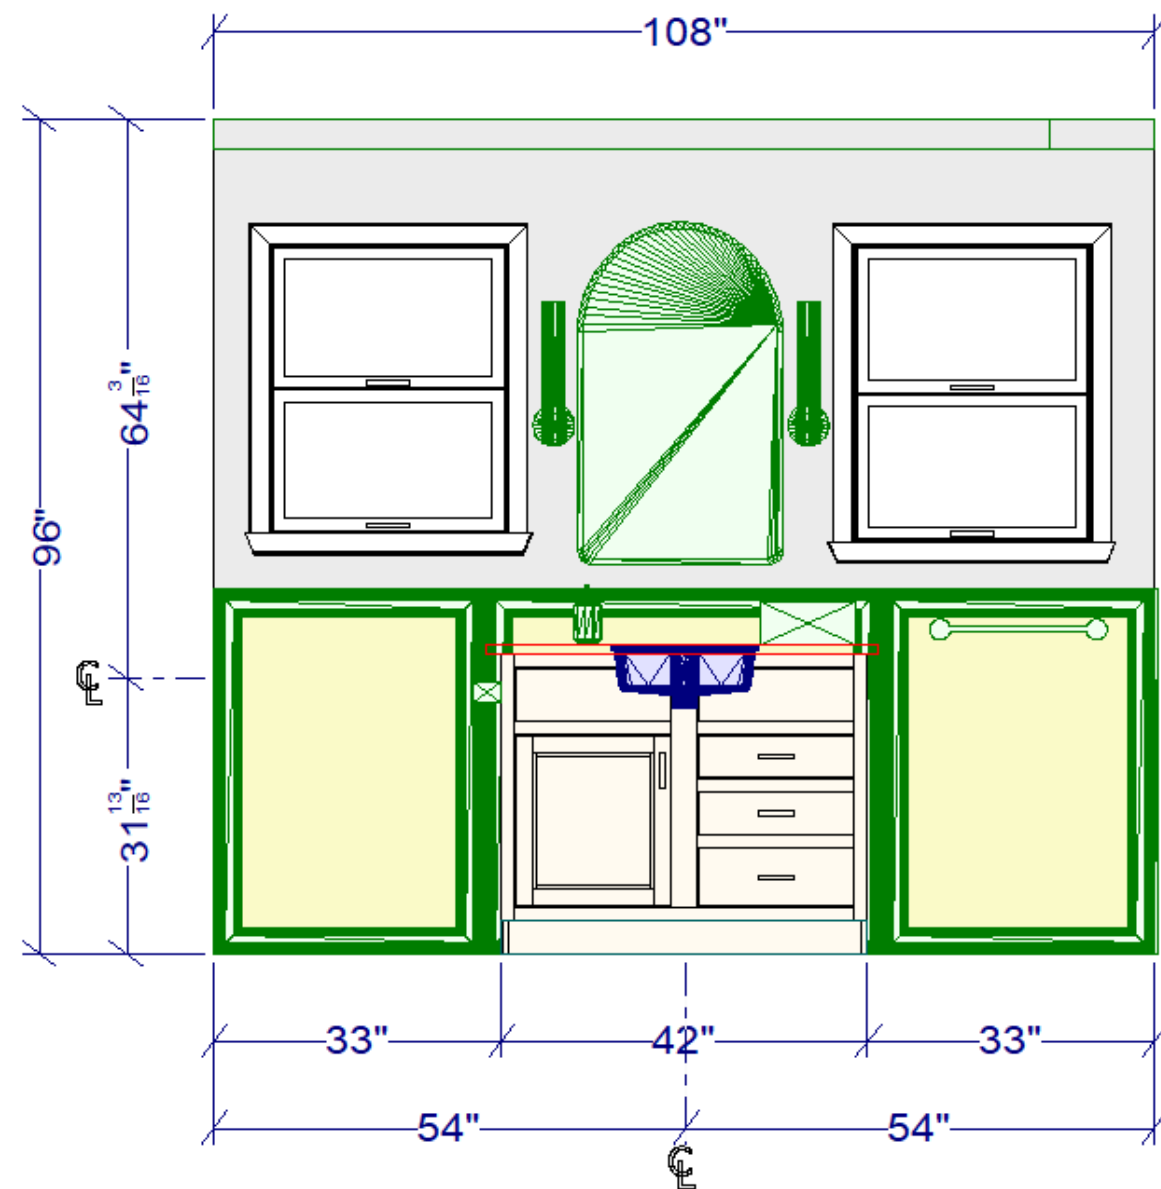

Melinda Peters Elliott, Owner & Lead Designer at Fine Designs and Interiors has over 32 years of experience in owning and operating a specialized drapery workroom, Melinda Peters Elliott is an expert in creating beautiful, custom window treatments. Over the years, she has garnered recognition by winning several prestigious design competitions, showcasing her exceptional talent and passion for interior design. Melinda is known for her easy-going and collaborative approach, making the design process seamless for her clients. At Fine Designs and Interiors, the sky is the limit when it comes to creating unique and personalized window treatments that elevate any space.

2D AND 3D RENDERINGS

Using advanced software, we create detailed two-dimensional and three-dimensional models that allow you to explore every angle, layout, and design choice.

This gives you the opportunity to visualize vanity placements, lighting, and finishes, making it easier to make adjustments and changes.

CUSTOM VANITIES

Custom vanities for a bathroom offer both functionality and style, allowing you to create a space that fits your unique needs and aesthetic preferences. We design custom vanities that maximize storage, accomodate specific layouts, and enhance the overall look of a bathroom.

- COUNTLESS STAIN AND PAINT OPTIONS TO CHOOSE FROM
- INNOVATIVE STORAGE SOLUTIONS
- QUALITY MATERIALS

TILE

Whether it's large-format tiles for a clean, seamless appearance or intricate mosaic patterns for added visual interest, tile helps define the space while ensuring longevity and ease of upkeep in bathroom environments. Its ability to reflect light, add texture, and enhance the overall atmosphere makes it a key element in transforming a bathroom into a stylish and functional retreat.

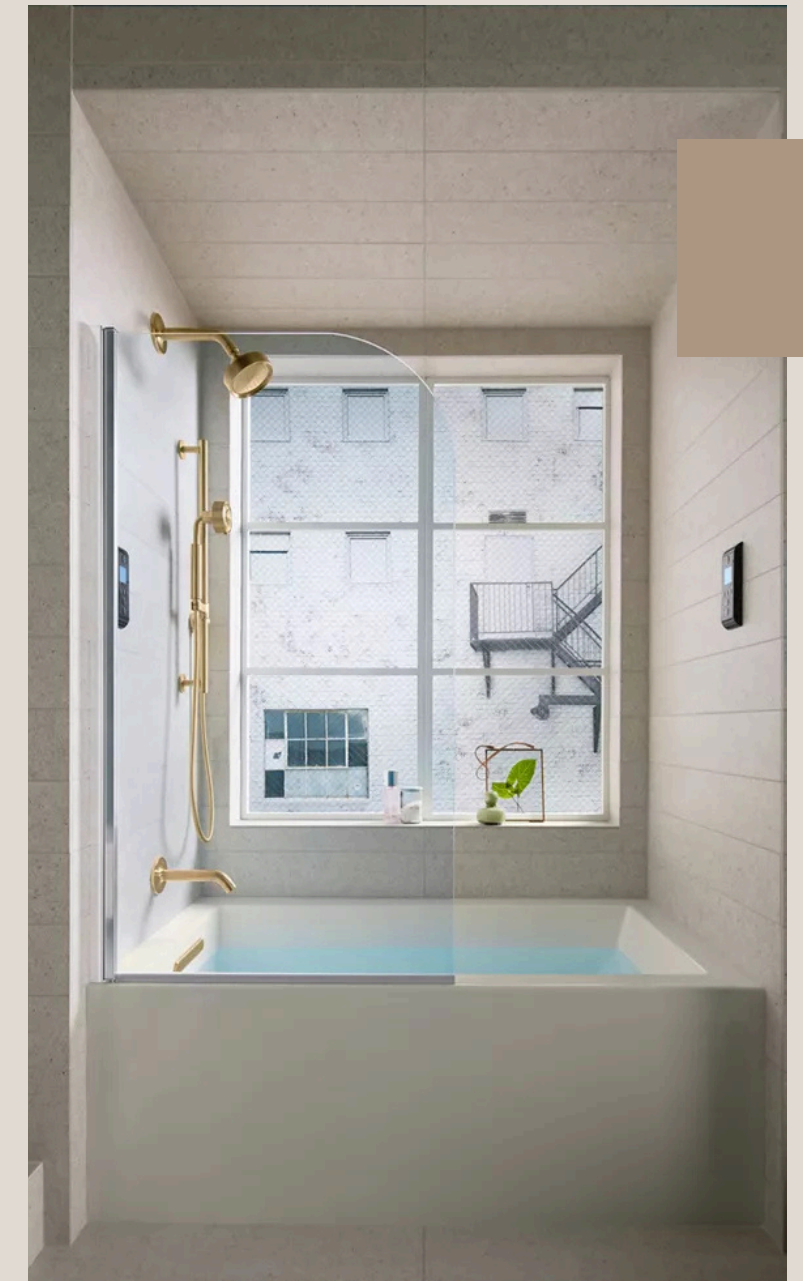

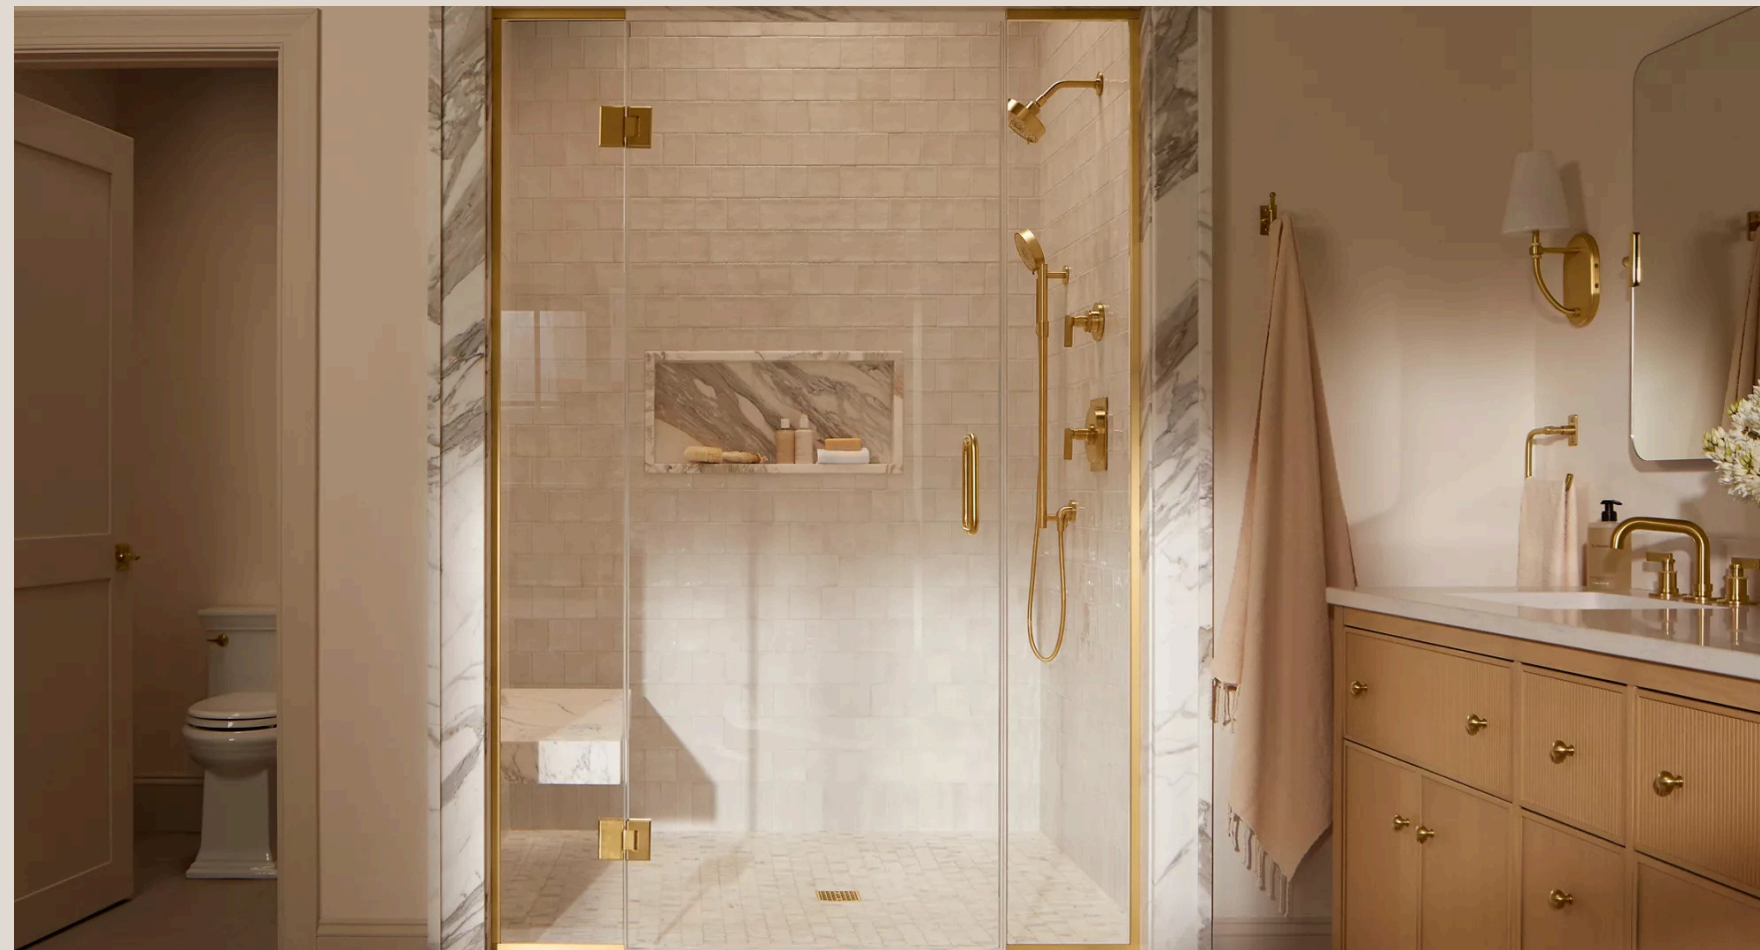

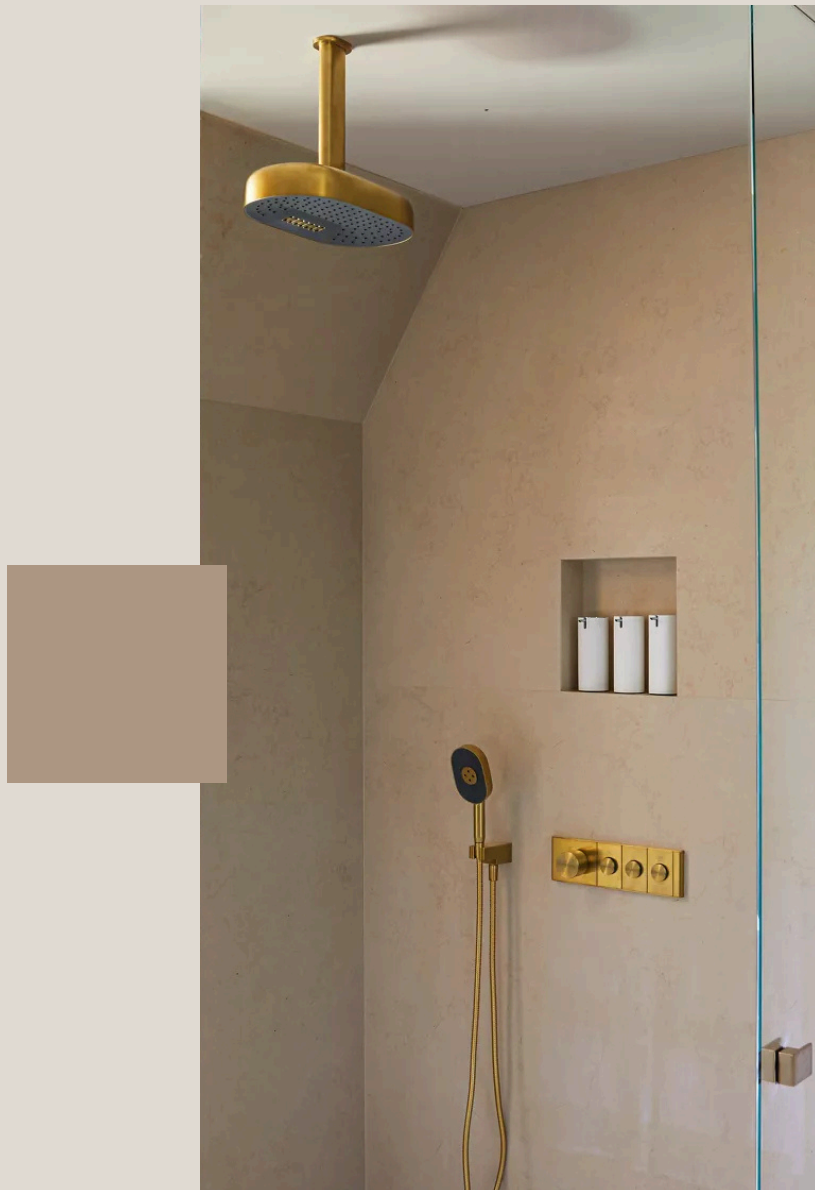

Tile is a versatile and essential material in bathroom interior design, offering both functional and aesthetic benefits. It provides durability, water resistance, and easy maintenance, making it ideal for wet areas like showers, floors, and backsplashes. Available in a wide range of styles, colors, and textures, tiles can be used to create various design aesthetics, from sleek modern looks to rustic or traditional themes.

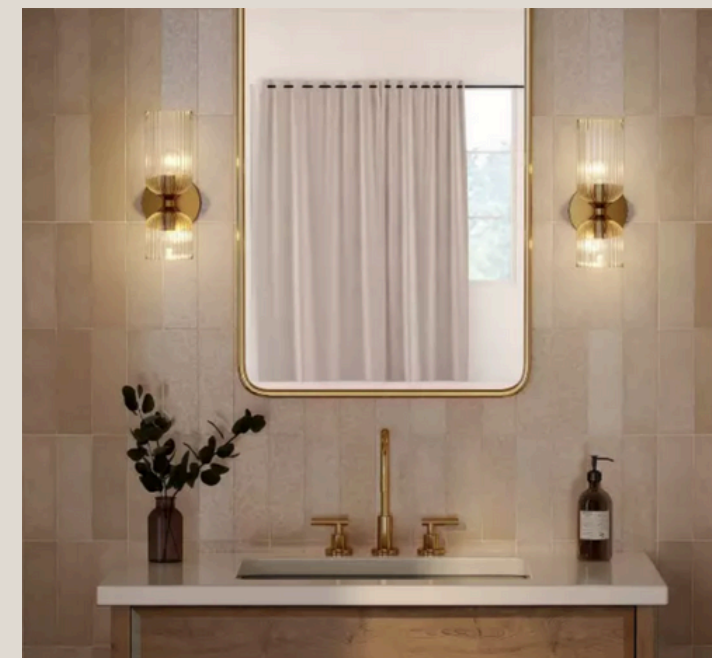

PLUMBING

Plumbing fixtures are key elements in bathroom design, combining function and style. Sinks, faucets, toilets, and tubs are essential for daily use while enhancing the space's look. Modern faucets and sinks come in a variety of designs to suit any style, while toilets offer efficient, space-saving options. Tubs, whether freestanding or built-in, add a touch of luxury and relaxation. Choosing the right materials and finishes for these fixtures can improve both the bathroom's functionality and its overall appeal, creating a comfortable and stylish environment.

FINISHING TOUCHES

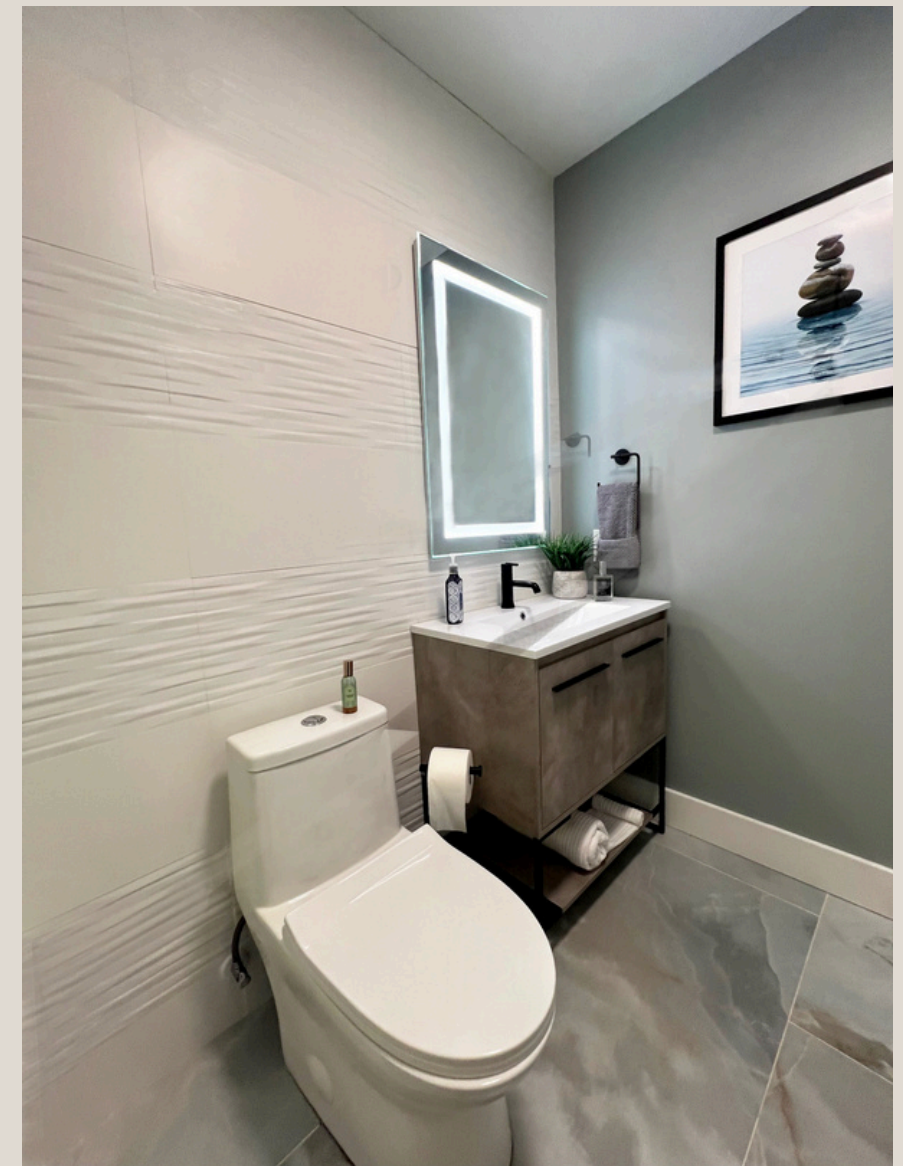

The finishing touches in a bathroom, like lighting, mirrors, and accessories, are key to its overall aesthetic. Thoughtfully chosen lighting sets the mood, while mirrors can add depth and act as focal points.

Accessories such as stylish towels and storage solutions enhance both the design and functionality. These details bring the bathroom to life, creating a cohesive and personalized space.
