April 21, 2023

Dear Bob,

I wanted to take a moment to thank you for the excellent service we have received through Get the Lead Out, LLC. Since I made contact with you, I have been very impressed with the information and assistance you have been able to provide our district. The water testing process has been clear, organized, easy, and seamless. I look forward to continuing the work as we receive results, analyze next steps, and receive documentation for grant reimbursements and state reporting.

Get the Lead Out, LLC is truly a "one stop shop" for school districts to make sure they are in compliance with this new law. I have already told numerous school superintendents about our experience with your company. I am always happy to support individuals who provide excellent service to schools. This is evident with your new company.

I am looking forward to the next steps as we receive the results. I'm crossing my fingers for all results below 5 parts per billion!

Thanks again, Bob. Feel free to use me as a reference to others. I give you my highest recommendation.

Sincerely,

A handwritten signature in cursive script that reads "Jamie Burkhart".

Jamie Burkhart, Ed.D
Superintendent
Green Ridge R-VIII School District
