June 4, 2023

To Whom It May Concern:

Beginning with the 2023-2024 school year, each school district in the state of Missouri is required to provide drinking water with a lead concentration level below five parts per billion in sufficient amounts to meet the drinking water needs of all students and staff. I am so thankful for Bob Franklin with 'Get the Lead Out LLC,' for ensuring that Brunswick R-II is in compliance with RSMo. Section 160.077. Bob has handled each sampling without any worry on our end. He is thorough and efficient. The mandates of the statute are met, public notices provided, and we received timely, knowledgeable customer service by Bob Franklin every time. Bob makes this process easy, while working with the district implementing short and long term remediation needs and also keeps me informed on grant opportunities to help with funding.

I would highly recommend Bob Franklin with Get the Lead Out, LLC to support your District in meeting this Missouri statute.

Sincerely,

Cara Engelbrecht
Superintendent
