Heart's Content Lighthouse

The lighthouse is a familiar landmark in Heart's Content and is visible when you enter the town from any direction. The site itself provides a view of all of Trinity Bay and is a popular spot for sighting whales and seabirds.

Vitter's Cove Beach

Situated to the south of New Perlican's main harbour, this relatively unpopulated area offers an expansive view of Trinity Bay and features a long, stone beach, great for finding sea glass!

d'Iberville Trail

Developed all the way from Heart's Content to New Melbourne, this trail can be as long or as short as you like. This trail commemorates the first military crossing of the interior of the southwestern Avalon by French Navy Captain Pierre LeMoyne d'Iberville in 1696.
