Autumn/Winter 2019

love from the team!

Amsterdam, September 2019

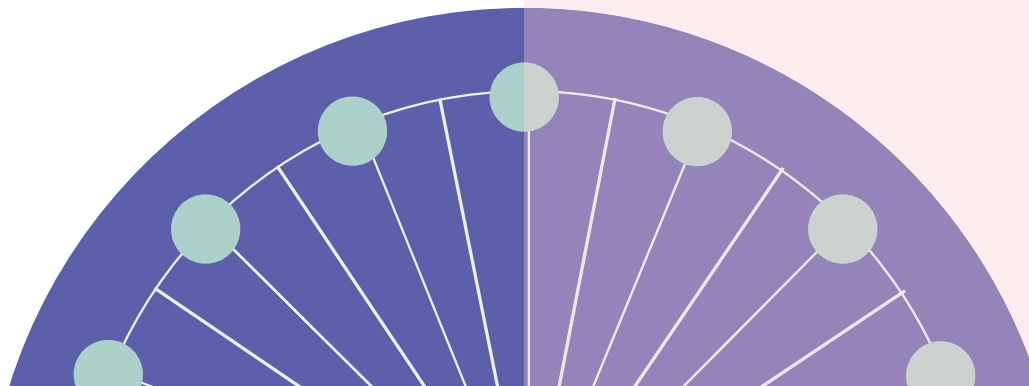

It was colour, colour, colour everywhere at the fairs in Paris and Milan in the first half of 2019. As if we had collectively decided that our interiors could do with an injection of colour. Like a positive vibe for our homes, wrapped up in every shade of the rainbow. Every reason to be delighted, given that we have been big fans of colour from the day we started! Our animals, masks, notebooks and cards are a feast for the eyes with wonderful, distinguishing colour combinations, graphic patterns and illustrations. The point being that, regardless of any home decoration or fashion trend, we have always followed our own (quirky) path.

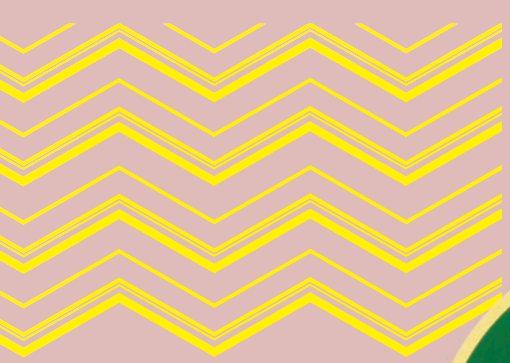

With an international team based in Amsterdam, we design and produce playful products that embellish our homes and allow you to create your own story. But at the same time, Mother Nature plays a central role in everything we conceive and do. The products are made from recycled cardboard and the inks used for printing are plant based. It is our way of contributing to a better, more beautiful world.

All the positive feedback we received in response to our last creations makes us feel honoured and happy. Thank you so much! Your compliments are precious to us and tell us that we are on the right track. That is why we continue our journey with a variety of new products, from pop-out cards to additions to existing collections and a bespoke series of DIY products in collaboration with a special customer. The motto in our studio is: the destination is not our highest goal, the journey there is at least as important.

Warm wishes,

romy & ilya
