designed to imagine

Catalogue
Spring/Summer 2020

Amsterdam, January 2020

Sometimes, you need to step away from the familiar to continue your journey. And so, just before the end of the year, we visited our beloved India, a country so rich in smells and colours that it can be hard to know where to look and your nose is working overtime. A fantastic source of inspiration that will undoubtedly lead to new, special creations in the next season.

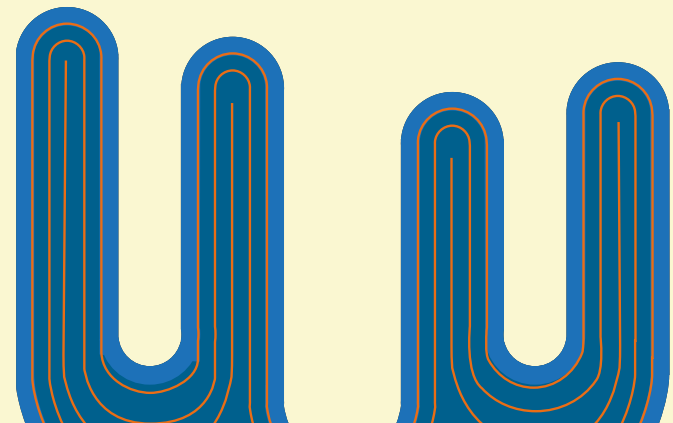

But first this new season! With beautiful additions to the existing collection as well as brand-new ideas, of course, like the tropical fish to hang on your wall and a series of brooches to wear on your blouse or coat, allowing you to take that colourful vibe everywhere you go. Let your imagination run free and decorate not only your home, but also yourself!

The animal world constantly rouses our imagination. Nature around us, close by and far away, has so much to offer in terms of colour, form and texture. All our designs show the beauty of nature, but also that of cultural expression. Our masks are an example of that. With their abstract shapes and limited colour palette, we highlight how diverse humanity is, in how people dress and adorn themselves. What binds us as people is love. Our love for each other and of nature.

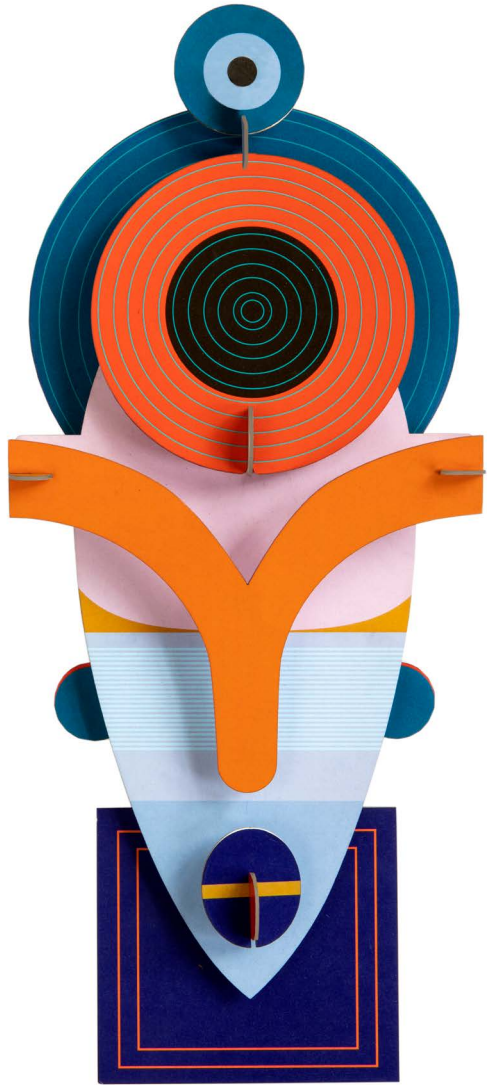

At Studio ROOF we therefore try to treat the earth with the greatest possible respect. In addition to emphasising the beauty of animals and people in our designs, we also exclusively use recycled cardboard and vegetable inks to minimise our impact on the environment. This is how in two ways we contribute to creating a more beautiful world.

We wish you a wonderful Spring and Summer!
